## JAIL FOR EDITORS

JUDGE HANECY SEVERE WITH HEARST'S WRITERS.

PUNISHES FOR CONTEMPT

MANAGING EDITOR TO SERVE FORTY DAYS.

H. S. CANFIELD THIRTY DAYS

TO DEAL WITH OTHERS WHEN HE GETS THEM.

Chicago, Nov. 12.—On a charge of contempt of court Judge Hanecy today sentenced Andrew M. Lawrence, managing editor of Hearst's Chicago American, to forty days in the county jail. The sentence of H. S. Canfield, who wrote the article objectionable to the court, was fixed at thirty days in jail. The cases against S. S. Carvalho, financial manager of the paper, and John C. Hammond, assistant city editor, were dismissed. Judge Hanecy declared that the cases against W. H. Hearst, majority stockholder of the paper; Homer Davenport, cartoonist, and Clare Briggs, also a cartoonist, would stand until such time as these respondents could be brought into court by the sheriff. Former Governor Altgeld, counsel for the respondents, entered a formal exception to the decision. "This case, I may say," the court remarked, "is not appealable. You may file a bill of exceptions for a writ of error, however. I am willing to delay the serving of papers on Mr. Lawrence and Mr. Canfield till you have drawn your bill."

"We do not feel that we have any favors coming from this court," Mr. Altgeld answered. "We are much obliged."

The court room was crowded to the limit when Judge Hanecy entered.

WHERE THE TROUBLE BEGAN.

The article in the American upon which the proceedings in contempt were based was a criticism of the court's decision on an application for the forfeiture of the charter of the People's Gas, Light and Coke company.

Judge Hanecy said if the matter published were allowed to go unnoticed by the court it paved the way for other attacks and that the judiciary, if not held in respect, would fall, with all democratic government. The article, the court declared, was not merely an attack on the people and on the court, but a bold threat to every other court. It should, therefore, not go unpunished.

A few minutes after the rendering of the decision and the imposition of the sentences as to Lawrence and Canfield, Judge Dunne, upon application, issued a writ of habeas corpus as to them, returnable immediately.

## RATHBUN TELLS MANY TALES

INSURANCE SWINDLER IN A TIGHT CORNER.

Police Believe the Dead Man in the Case Was Murdered and Are Pursuing That Theory.

Louisville, Ky., Nov. 12.—A thorough investigation is being made into the details of an alleged attempt of Newell C. Rathbun to defraud the Metropolitan Insurance company. Rathbun admits that he proposed to secure the body of a dead man, dress it in his own clothes, place it in a Jeffersonville, Ind., hotel and then burn the hotel, in the belief that the body would be identified as his and the insurance money paid. The police believe the body of the man found was that of a murdered man.

Having, as they believe, established the identity of the supposed murdered man, the detectives are now busy devising the case against Rathbun. He has told several stories, but the one that he stuck to the longest and which he still insists is true, is that he formed the conspiracy in conjunction with a deserter from the regular army by the name of Blanchard. He states that he and Blanchard met here by agreement and prepared the details of the plot. Blanchard agreed to provide a corpse if Rathbun would set fire to the building after the corpse was prepared. "Blanchard brought the body there," said Rathbun. "I had nothing to do with killing him, and doubt if he was killed. The man may have died accidentally, but I do not know anything about this. Blanchard, however, acted the fool in flushing the game before the hotel could be set on fire. I hope you will find him."

## BACK AT DURBIN

GOVERNOR BECKHAM GRILLS INDIANA GOVERNOR.

CHARGES POLITICAL PLOT

IN REFUSAL TO YIELD THE KENTUCKY FUGITIVES.

CITES LAW AND EVIDENCE

A HOT REPLY TO DURBIN'S RECENT LETTER.

Frankfort, Ky., Nov. 12—Governor Beckham of Kentucky has addressed to Governor Durbin of Indiana a letter replying to the criticism by the latter executive of the courts and officials of Kentucky in his recent letter refusing to honor the requisition for Taylor and Finley, wanted for alleged complicity in the assassination of Governor Goebel. He severely arraigned Durbin for his refusal, charging that in doing so he violated his oath of office to support the constitution of the United States and that he became "a party after the fact to the most infamous crime in the history of this state, the coldblooded and dastardly murder of an eminent and distinguished citizen of Kentucky."

The Kentucky executive also charges that Governor Durbin's action was the result of a political bargain made before his election to office, and characterizes his charges against the courts and officials of Kentucky as slanderous and inexcusable misrepresentations. He takes the stand that the governor of a state has no discretionary powers, but only ministerial power, in the honoring of legally drawn requisitions from other states, and this is taken here as an indication that steps will shortly be taken in the courts to compel Governor Durbin by mandamus to honor the requisitions. If such proceedings are instituted they will be in the courts of Indiana and taken on appeal to the supreme court.

BECKHAM BEGINS HIS REPLY.

In addressing Governor Durbin, Governor Beckham says:

"Frankfort, Ky., Nov. 9, 1901.—Sir: Your refusal to honor the requisitions some time ago sent you by me asking for the extradition of W. S. Taylor and Charles Finley, fugitives from justice from this state, charged with being accessories to the murder of William Goebel, was not unexpected, but the remarkable letter with which you accompanied the return of the papers was indeed a surprise to me, and I sincerely regret the necessity of this reply. It is true I had been reliably informed that you had incurred campaign obligations which committed you to the protection of these two valuable adjuncts to your political fortunes and that they had been promised immunity from arrest under requisitions from Kentucky authorities in the event of your election as governor. The information has been confirmed by your conduct and by the complete sense of protection under which these two men seem to have rested since your incumbency of the office. You are at least entitled to the credit of having faithfully carried out your reputed agreement with them. However, in doing so you have violated your oath of office and brought discredit upon the high position you hold.

SAYS KENTUCKY IS INSULTED.

"But even with this understanding of your embarrassing position, confronted, as you were, on the one side by the law and justice on the by a miserable political bargain. I could not believe that you would so far forego the dignity and obligations of your office and the courteous relations that exist among the chief executives of the various states as to go out of your way to offer a gratituous insult to the people of Kentucky and to cast a reflection upon the courts and public officials of the state.

"If these slanderous charges had come from you as one individual then they would be treated with the silent contempt they so justly deserve, but as they came from you as the governor of a great state I shall not hesitate to hold you up to public scorn and show how unjust and unfounded are the willful and inexcusable misrepresentations in your letter.

DEFENDS JUDGE CANTRILL.

"Passing on from showing how you have disregarded the constitution and law of your country, I will proceed to show how you have perverted the record in the recent trial of Caleb Powers and sought by such action to bring discredit upon an honorable and upright judge whose life of public service has been unstained by a single dishonorable act and whose character as a man and as a jurist stands unimpeached among the good people of this state.

"You criticize the recent trial of Powers and denounce Judge Cantrill for his instructions to the jury. You say in your letter he instructed it 'that it might convict on the testimony of one alleged accomplice if that testimony was corroborated by that of another alleged accomplice; that it might convict the defendant for the act of another man, to which the defendant had never agreed,' etc.

"To show how untrue the statement is, I produce from the record the exact instruction of the judge in that case on this point: '8. The jury cannot convict the defendant upon the testimony of an accomplice or of accomplices unless the testimony be corroborated by other evidence tending to connect the defendant with the commission of the offense, and the corroboration is not sufficient if it merely shows that the offense was committed and the circumstances thereof.'

"Is this a manly way to attack anyone? Is it right and proper to manufacture evidence to blacken, if possible, his character? You insinuate, too, that the judge has been influenced in his trials of these cases by his aspirations as a candidate for

**MENTAL AND MORAL.**

The state of the mother during gestation may influence the whole future of the child. It is highly important that pregnant women meet the issue with calm composure and with as little pain as possible. Animals of the lower kingdom require no outside aid to undergo painless gestation and delivery of young, for they are not physically hampered or deformed by dress.

Women suffer agonies when with child, unless they make use of the discoveries of art and science that counteract the effect of dress follies. To-day in every drug store there is one liniment sold at $1 per bottle, which excels in virtue and safeness any like remedy, to be applied externally by hand once a day on the skin in the region of the uterus. It is not a drug for you to swallow. It is Mother's Friend, so named because it has never failed to give comfort and ease to any woman who ever used it in motherhood.

## CHIEF OF THE ROYCROFTERS

### BRILLIANT LECTURE BY ELBERT HUBBARD.

### Tells About That Interesting Colony at West Jefferson Street Church of Christ.

Elbert Hubbard, "Fra Albertus," chief of the Roycroft workers, editor of the Philistine, philosopher, scholar and author of many brief stories that have become famous all over the country, was heard Monday evening at the West Jefferson street Church of Christ, his lecture being the opening one of the People's Lecture course. The audience, though not a large one, was thoroughly appreciative and listened with unabated interest for more than an hour and a half to Fra Albertus' "preachment," as he called it.

Mr. Hubbard's subject was "Bookmaking," which is one of the chief occupations of the Roycrofters. "The Roycroft shops," he said, "is a place where 300 philosophers make books and think. We don't make books to sell for fourteen cents on Fridays: no, indeed; our books sell from $2 to $250. Our work is said to be original. It is not. We are making books as near as we can like those made in Venice in 1492 by the monks. Our books are high-class, therefore high priced."

Mr. Hubbard then entered into a detailed description of the unique social order of which he is the head, frequently digressing to tell some interesting story about himself and the people he has met. Fra Albertus is a lover of children and believes that children should be heard as well as seen. Every child is an embryo artist and shouldn't be punished if he marks on the wall or soils his clothes making mud pies. The work of the hands is a sure reflector of character. Therefore, if a child wants to cut up your Munsey or Home Journal, it is much wiser to let him do it than to repress the instinct of art.

Mr. Hubbard believes in having music in the work room. It is a good business investment. Music has a soothing as well as a stimulating effect and the more that can be absorbed the better. Music absorbed into the being comes out at the finger tips. Mr. Hubbard regards the kindergarten as the greatest step ever taken in practical education. In the kindergarten the child is instructed as well as amused and the artistic sense is developed as well as the practical. "Art is the expression of a man's joy in his work" is a tart definition that holds a high place in the estimation of Fra Albertus. He believes in finding out in what direction a child's taste lies and developing the child's career along that line. He believes in making work attractive and not teaching a child to regard it as a punishment, and the Roycroft shops at East Aurora, N. Y., are operated according to these principles. Mr. Hubbard believes in running things on a co-operative basis and one of his favorite maxims is, "One way to succeed is to do something for someone else." He does not believe in giving a dollar and getting nothing in return; for every dollar paid out a dollar's worth should be received, "or a dollar and ten cents' worth," he added, naively. Mr. Hubbard caused a ripple of amusement by saying that a preacher who prepared a sermon got more benefit from it than the congregation, and applied the same rule to a club woman who prepared a careful article to be read before her club.

There are good points in everyone; the boy who is expelled from school is possessed of a surplus energy, he is full of impressions to which he desires to give expression, and is not necessarily bad. Mr. Hubbard is charitable in the broadest sense and believes that there are no naturally bad people.

Fra Albertus possesses a fund of dry humor which is continually cropping out in his discourse. He is an excellent speaker and smiles quite broadly when he tells a joke on himself. He has an exhaustless store of amusing anecdotes and his stories have the distinction of being original; he never tells any he reads. Fra Albertus may live in a little town and be the editor of a little magazine, but anyone that imagines he is a little man makes a big mistake.

Judged by the work it does Ivory is the cheapest soap in America to-day. It is harmless. Embroideries, laces and delicate stuffs should be washed only with Ivory Soap.

## ABOUT THE CITY HALL.

The council will meet in regular session tonight and has quite a grist of business before it. The street car question is likely to come up in various forms, although it may be passed off very quietly by simply referring the whole matter back to the board of works without debate; the waterworks question will come up for its share of discussion and the intercepting sewer committee will ask for an appropriation to provide for the payment of the printing of their report, which will include the complete assessment rolls of the work.

The street and park employes were paid off today. The pay roll amounted to a trifle over $700.

Mayor Berghoff will go to Madison, Wis., tomorrow afternoon on private business.

### BAD DREAMS

Caused by Coffee.

"I have been a coffee drinker, more or less, ever since I can remember, until a few months ago I became more and more nervous and irritable, and finally I could not sleep at night, for I was horribly disturbed by dreams of all sorts and a species of distressing nightmare.

"Finally, after hearing the experience of numbers of friends who had quit coffee and gone to drinking Postum Food Coffee, and learning of the great benefits they had derived, I concluded coffee must be the cause of my trouble, so I got some Postum Food Coffee and had it made strictly according to directions.

"I was astonished at the flavor and taste. It entirely took the place of coffee, and to my very great satisfaction, I began to sleep peacefully and sweetly. My nerves improved, and I wish I could warn every man, woman and child from the unwholesome drug, ordinary coffee.

"eople really do not appreciate or realize what a powerful drug it is and what terrible effect it has on the human system. If they did, hardly a pound of it would be sold. I would never think of going back to coffee again. I would almost as soon think of putting my hand in a fire after I had once been burned.

"A young lady friend of ours had stomach trouble for a long time, and could not get well as long as she used coffee. She finally quit coffee and began the use of Postum Food Coffee and is now perfectly well. Yours for health. Dont publish my name."

The council seems to have made a loop in its interurban terminal cruise.

The sultan will probably make excuse to other powers with bills to collect that France has just cleaned out the exchequer.

Gus Ruhlin announces that if he is winner of the bruising match in which he and Jim Jeffries are to engage next Friday night he will at once take to the stage and become an actor. In view of which we are constrained to wish long wind to Jim and a mighty stiffness to his jabs, punches, swings and other fancy tricks of the game.

But for the Ohio river the long range typewriter duel between Governor Durbin and Governor Beckham would doubtless in time breed civil war between our two good commonwealths.

The recent removal of two outrageous violators of the civil service laws in the revenue service leads to the conclusion that if William Dudley Foulke took a seat on the civil service commission for his health he has not been long in finding something that is good for it.

We bow low to the genius of young Mr. Pulz, who eloped yesterday with one of this city's fair daughters. There is no hilarity in an elopement if it is kept a secret. Mr. Pulz appreciated this and accordingly notified the newspapers of what he had done, where he had gone and what he was going to do. Before the sun had gone down on his achievement it was the town talk and the elopement therefore a shrieking success.

### NOTHING DONE OR DOING.

After months given to consideration of the interurban issue, the city council is found to have been traveling in a circle. With the action at last night's meeting of the committee of the whole the council is brought up to where it started. So far as any settlement of the interurban question is concerned nothing has been accomplished. The decision to refer all interurban matters back to the board of public works has the appearance of an essay to escape responsibility for anything that may or may not be done.

The council does not appear to be very deeply sensible of its obligations to deal wisely and determinedly with these public matters. Where the people have looked for solution of these vexed difficulties they have found only the hole from which the council has backed out. Such a course is harmful. It leaves the whole matter to be threshed out and gone over again and places settlement of the question indefinitely in the future. One course or another should be decided upon.

We have urged and urge again that the council, the board of works and the mayor, as the three elements of the city government whose approval is essential to the carrying out of any proposition, get together and agree upon some general policy for the treatment of interurban railways. If the whole matter must be thrown back upon some contingency of which the Fort Wayne Traction company is to be the arbiter, let it be done at once, so that projectors of interurban enterprises and the people of this city may know what to expect. If the interurban lines are to have entrances and terminals independent of the traction company, what common sense is there in pawing the matter over week after week and month after month and in the end doing nothing?

The city council meets in regular session tonight. We shall be glad to have brought forth an excuse for not reaching some kind of determination at this meeting.

Those who were fortunate to hear Mr. Elbert Hubbard at the West Jefferson street Church of Christ last evening must have been impressed by his philosophy, which holds that every man, woman and child, no matter of how unpromising character, can in some way be made useful to society. Of course such a view does not comprehend the inherently vicious and depraved, but rather the unfortunate, the aimless and dissatisfied. It doubtless is true that nearly every person is good for something, that nearly every person can do something well, accomplish self-maintenance and contribute something to the general good of society. Mr. Hubbard's Roycroft community at East Aurora, New York, has exemplified this most conspicuously. It is a good lesson that more should learn.

## MUSTER INTO LAWTON POST

### OSSIAN VETERANS WILL BE RECEIVED.

Members of Defunct Grand Army Post Will Join Fort Wayne Organization.

An interesting ceremony will occur at Ossian Thursday evening, by which quite a large number of veteran soldiers there will become affiliated with a Fort Wayne Grand Army post.

Some years ago a post of the Grand Army was organized at Ossian, but its career was not a thriving one and a few months ago the membership, discouraged in the attempt to maintain an organization, disbanded. Several of the old soldiers, loth to give up their membership in the Grand Army, made overtures to the officers of Lawton post, No. 590, in this city, with the result that the Ossian veterans will be received in a body into the ranks of Lawton post.

Thursday morning a detail of the post will go to Ossian to make final arrangements, and a larger delegation will follow on the afternoon train. Thursday evening will occur the muster ceremony, in charge of B. W. Skelton, post commander of Lawton post, and the Ossian soldiers will then be regularly received as members of the Fort Wayne body.

### WILL GET THEM ALL.

Kansas City, Nov. 12.—Twelve of the twenty-six convicts who escaped from the Fort Leavenworth prison last week, were still at large this morning, no additional captures having been reported during the night. The ringleader, Frank Thompson, was captured last night and now the prison officials feel confident of securing the rest of the men now at large. Warden McClaughey over the long distance telephone early today said that reports from his deputies were to the effect that the convicts were being followed closely and, it is probable, will be taken soon.

There will be a "converts' meeting" at the West Jefferson street Church of Christ this evening.

the United States senate. If rumor speak true you are not above suspicion in that respect yourself, and the rancorous spirit of your letter shows that you are making a bid for the support of the implacables and radicals in your own party with a view to that end. I doubt the wisdom of your policy to secure such an honor.

CHARGES AGAINST TAYLOR

"There is no doubt now that the assassination of William Goebel on the state capitol grounds was the result of a deliberate and carefully planned conspiracy; that he was shot from a window in the office of the secretary of state not over forty feet from the governor's office, where W. S. Taylor was when the shot was fired; that Taylor immediately had all entrances to the building guarded and forbade the admission of the peace officers who sought to enter and search for the assassin; that he threw every obstacle in his power in the way of preventing the arrest and conviction of anyone suspected of the crime; that he issued his pardons to some of those under suspicion even before their arrest and indictment; that he was presumably the beneficiary in the death of William Goebel, who was contesting with him the title to the governorship of Kentucky; that he refused to recognize the writ of habeas corpus, filled the state capitol with over 1,000 armed desperadoes and threatened the entire state with revolution and anarchy, and that today he is a cringing supplicant at your feet, begging that he be not given over to trail on an indictment charging him with being a conspirator in the murder of his successful rival.

"It would be no satisfaction to anyone to punish an innocent man for this crime. The mind of any civilized man revolts at such an idea. The brothers and friends of the murdered governor simply demand the punishment of those who conspired to kill him. No political advantage could be gained by anyone or any party in convicting the two self-confessed criminals now basking in the smiles of your protecting care.

USE OF REWARD FUND.

"You ask again what was the object in appropriating $100,000 for the conviction of the suspected murderers of William Goebel? The same object which prompted the government to pay secret service men and other detectives to discover if possible whether the miserable wretch Czolgosz had any confederates in his dastardly crime. Only $7,000 has been spent of the Goebel reward fund, all in the legitimate expense of the trials, and it is safe to assert that at least that much more has already been spent in the laudable purpose of trying to discover the anarchist plot to murder our lamented president.

"The honored name of Kentucky needs no defense at my hands. Her history is one of which we are justly proud. Over 100 years ago she became a commonwealth in the American union and her pioneer citizens cleared the forests, built homes, schools, churches, established civil government and quickly placed her among the first states of the union. Her people are brave, generous, hospitable and obedient to the law. Life, liberty and property are as safe within her borders as anywhere on earth.

"Only one time in her history were these blessings threatened and that was brought about by these two fugitives whom you harbor and some of their associates. It was then, too, that the great body of Kentuckians showed their splendid character, their forbearance and their profound respect for the law and the constituted authorities, and it was their patient courage at such a critical time that brought order out of chaos, government out of anarchy. Such a people as these could neither be helped by your praise nor harmed by your scurrilous abuse and such people would never knowingly permit anyone to be unjustly deprived of his life or liberty."

### REV. GROSS IS HOME.

Rev. C. Gross, D. D., the venerable pastor of Emanuel Lutheran church, who submitted to a critical operation in St. Louis, Mo., some time ago, arrived home today. Rev. Gross is making a good recovery, and will probably resume his duties soon.

Imported Oriental Rugs, have to pay an enormous tariff charge when brought into this country, making them unreasonably expensive. Many people have wondered why someone did not make them in the United States, thus enabling the price to be more than cut into right in the middle.

Parties in Philadelphia have taken the matter up and are now turning out some very elegant goods. They are not produced amid the filth and disease breeding conditions, surrounding the manufacture of these goods in Oriental countries.

We have just received the first of these Rugs to be shown in Fort Wayne. See a few samples of them in our small Court street window.

## HAS TENDERED RESIGNATION

### C. W. ORR TO LEAVE HAMILTON NATIONAL BANK.

Will Become Manager for Aetna Life Insurance Company in New General Office Here.

Charles W. Orr, for many years connected with the Hamilton National bank, and for the past fourteen years the assistant cashier of that big financial institution, has tendered his resignation to take effect December 1. Mr. Orr retires to become manager of a general office of the Aetna Life Insurance company, of Hartford, Conn., which is to be established in Fort Wayne.

This announcement will come as a surprise to Mr. Orr's legion of friends. Few men in Fort Wayne are more widely known in business circles, and throughout the twenty-seven years of his connection with the Hamilton bank Mr. Orr has gained the friendship and esteem of the countless people with whom he has transacted business over the bank's counters. He entered the employ of the bank in 1874 as messenger boy, rose through the successive steps in line of promotion to the position which he has occupied for the past fourteen years.

For the past ten years Mr. Orr has been the local representative of the Aetna Life, and when that company determined a short time ago to establish a general office in Fort Wayne through which to handle the business of the thirty-one counties comprising the northern half of Indiana the position of manager was offered him. It was in this connection that Mr. Orr recently made a visit to the east, and while there the arrangements were consummated. Mr. Orr placed his resignation with the bank officials last evening.

The Aetna is the first of the old line eastern insurance companies to place a general office in Fort Wayne, and business will be transacted directly with the home office. The position of manager is regarded as a particularly desirable one, and Mr. Orr will doubtless be splendidly successful in it. He will have direct jurisdiction over the business of the company in the northern part of the state, and it is not unlikely that other big insurance companies will follow the lead of the Aetna and place general offices in this city within a short time. Mr. Orr has leased offices at 32 East Berry street, second floor, and they will be equipped in first-class style.

In addition to his connection with the bank, Mr. Orr has been prominently connected with other financial institutions. He is vice president of the Allen County Loan and Savings association and a director of the Citizens' Trust company. It is stated that the place vacated at the bank will be filled by a series of promotions of the other employes.

## THE NEW JURIES ARE DRAWN

### PANELS FOR CIRCUIT COURT ARE MADE UP.

The November Grand Jury May Not Be Called—Nothing Now to Do—The Court News.

Jury Commissioners Henry Hild and William A. Spindler this morning drew the following juries for the November term of the circuit court:

Grand jury—Theodore Thorward, city; Walter Shane, Aboit; Louis Schroeder, jr., city; David Watson, Cedar Creek; Bert Zimmerman, Milan and Frank Gromax, city.

Petit jury—Joseph Storm, St. Joseph township; Jackson B. Hyser, Lafayette; Samuel Webster, Monroe; John D. Carpenter, Jackson; Myron Gorrell, Milan; Theodore Egerman, Adams; Joseph Pierre, city; Gotlieb F. Geller, city; Jacob W. Miller, Jackson; William J. McNobb, Cedar Creek and John Spitler, Cedar Creek.

The petit jury will probably be ordered in some time next week, but it is not likely that the grand jury will be called in at all. At present there are no prisoners in the jail waiting action by the grand jury and there are no cases under investigation that are likely to require their attention.

### ABOUT THE COURT HOUSE.

The case of Lawrence Funk vs. Henry Fuesse is on trial before Judge Aiken in the Superior court. The action is one involving the title to real estate.

Benjamin E. Heaton has filed his bond as notary public with William J. Vesey as surety.

Arthur Burns and John Mason have commenced suit against the Union Cemetery church of Huntertown. The action is on mechanics' liens and the demand in each case is $55.

D. C. Stout, son of Sheriff Stout, is slowly recovering from a severe attack of typhoid pneumonia which has kept him confined to his home for over six weeks.

Edward Dierkes was today taken to Jeffersonville to serve an indeterminate sentence of two to fourteen years. He was in charge of Patrolman Peter Collins.

President Jones and Supervisors Stewart, Smith and Cowden of the board of supervisors of McLean county, Illinois, were visitors at the court house today. They were accompanied by Colonel Read, secretary of the building committee in charge of the construction of a new county building at Bloomington, Ill. The building is about ready for the roof and will cost in the neighborhood of half a million dollars. Next Saturday bids for putting in the furniture will be opened, and it was to inspect the furniture of the Allen county court house that the gentlemen came here. They were chaperoned about the building by President Orff of the local board of commissioners. Their opinions simply echoed the sentiment of all the inspection parties, that have ever visited here, being that Fort Wayne has the finest court house in the country. The party was at Indianapolis yesterday, and left for Chicago at noon today.

Judge Aiken this afternoon granted Rebecca Jackson a divorce from Silas Jackson, and also awarded her the custody of their three minor children.

John W. Ormdorf has filed his final report as administrator of the estate of Agnes Disler, and Margaret Moore has filed her final report as guardian of Ellen Moore, a minor.

In the superior court the case of Adams vs. Swift was dismissed. Shaffner & Co., have been awarded a judgement against A. C. McClaren for $110.25.

## THE NEWS OF THE POLICE

Having returned to the city last evening, Judge Louttit occupied his usual position at police court this morning. He had before him two penitent gentlemen who had yesterday run afoul of masterly jags, which were, however, not of the disorderly kind. Joseph Bennigan said he had been so good lately that he was afraid he was going to get rheumatism and it was to ward that off that he got a drink or two too many yesterday. The judge said he would overlook it this time, but to keep away from that rheumatic feeling in the future. Ira Speck was a sojourner only since yesterday morning. He liked the town pretty well and concluded to locate. He concluded afterward that he did not want to locate here at all and said if allowed to go he would shake the dust of the town from his sandals and hie him hence with great alacrity and becoming haste. The judge told him to hie and the session closed.

Boys with slingshots broke the glas in fire box No. 28, corner of Hayden and Francis streets.

A large window glass in Schmaltz's grocery in Nebraska was broken by roystering boys last night.

## THE RIGHT THING.

**A New Catarrh Cure, Which is Rapidly Coming to the Front.**

For several years, Eucalyptol Gualacol and Hydrastin have been recognized as standard remedies for catarrhal troubles, but they have al-

ways been given separately and only very recently an ingenious chemist succeeded in combining them, together with other antiseptics into a pleasant, effective tablet.

Druggists sell the remedy under the name of Stuart's Catarrh Tablets and it has met with remarkable success in the cure of nasal catarrh, bronchial and throat catarrh and in catarrh of the stomach.

Mr. F. N. Benton, whose address is care of Clark House, Troy, N. Y., says: "When I run up against anything that is good I like to tell people of it. I have been troubled with catarrh more or less for some time. Last winter more than ever. Tried several so-called cures, but did not get any benefit from them. About six weeks ago I bought a 50 cent box of Stuart's Catarrh Tablets and am glad to say that they have done wonders for me and I do not hesitate to let all my friends know that Stuart's Catarrh Tablets are the right thing."

Mr. Geo. J. Casanova of hotel Griffon, West 9th street, New York City writes. "I have commenced using Stuart's Catarrh Tablets and already they have given me better results than any catarrh cure I have ever tried."

A leading physician of Pittsburg advises the use of Stuart's Catarrh Tablets in preference to any other treatment for catarrh of the head, throat and stomach.

He claims they are far superior to inhalers, salves, lotions or powder, and are much more convenient and pleasant to take and are so harmless that little children take them with benefit as they contain no opiate, cocaine or any poisonous drugs.

All druggists sell Stuart's Catarrh Tablets at 50 cents for full size package and they are probably the safest and most reliable cure for any form of catarrh.

## SENT BACK TO THE BOARD

### COUNCIL REFERS FRANCHISE MATTERS BACK.

No Recommendations Made, But It is Desired All be Considered at Once—The Waterworks.

There were two important municipal meetings held last night at the city hall, both of which came to naught so far as definite action on the two important public questions is concerned. By a series of what a military man would call strategic evolutions, the council got back to where it started six months ago on the street car question and the waterworks question has moved back of the tape to where it stood two years ago. The council met last evening in committee of the whole to talk over interurban terminals and independent franchises, and after a session of an hour or more, conducted in the most profound secrecy, the committe gravely referred the whole matter back to the board of public works where it originated and referred it without any recommendation whatever. The particular point under consideration last night, was the Harrison street franchise for the Southwestern company. Yesterday it looked as though the franchise would be recommended by a vote of 11 to 9, or possibly 12 to 8. When the time came, however, there were four absentees, and the recommendation failed by a vote of 9 to 7. The other propositions were also discussed in a general way, but there was no vote taken, and Mr. Hanna's proposition was never formally presented. The same is true of Mr. Sordelet's municipal ownership scheme. After a running discussion of something over an hour, Mr. Sordelet made a motion to refer the franchise back to the board of works, and the motion prevailed. Mr. Sordelt said after the meeting that he wanted the board to have all three propositions before it at one time, instead of taking them up separately; he said he would be satisfied with anything that the board did, provided all the propositions were considered together. He denied that he is an obstructionist, but declared that he is anxious only to serve the best interests of the city. There may be a minority report to be presented this evening at the council meeting, when it is expected there will be a full attendance. The minority say they want to be placed on record anyway, and that they are not afraid or ashamed to let the public know where they stand on the important question of street car franchises and interurban privileges. It is more than likely, however, that the Southwestern franchise for Harrison street, Mr. R. B. Hanna's proposition for private construction and Mr. Sordelet's municipal ownership scheme will all be sent back in a bunch to the board of public works.

WATERWORKS MEETING.

The waterworks trustees, the special citizens committee, the council committee and the mayor met last evening and came to the conclusion that Engineer Hoit's report which has cost the city a couple of thousand dollars, but which has never been made, is not of sufficient importance to wait on any longer, and concluded to go ahead and make their recommendations in the absence of that long delayed document. Several years ago when it was proposed to put in a large pump at No. 2 station, it was objected to on the ground that there was not enough water to feed the big machine at No. 1, and that neither pump was working to its full capacity; it was shown at that time, that what the city needed was not more pumps, but more water. It was also urged that the water mains leading from No. 2 station were not of sufficient dimensions to carry water from a big pump. Last evening the committee decided that what the city needs is pumps, and recommendations will be made to purchase a 6,000,000 gallon pump for No. 2, and to put in either an air compressor or a deep well battery at No. 1. For years the question has been as to whether air lift or deep well pumps are the best, and the difference of opinion among experts has been the sole bone of contention during all that time. The committee solemnly discussed the matter last night and concluded that they thought one or the other was the best and will so recommend. The committees decision is much in line with the old German's system of determining the sex of young birds immediately after hatching. He said: "You must dake a worm and put him in der cage; den if he picks it up, dot is a he, und if she picks it up, dot is a she."

THE REPORT.

The report was not drawn and signed last evening, and this morning after being drawn, it was subjected to some revision before being presented to the committe for signature. It also developed that so far as station No. 1 is concerned, it is still to be considered as an experimental station. The matter of using deep well pumps at that place was thrown out of consideration absolutely, and a distinct recommendation for the purchase of temporary compressors is embodied in the report. The compressors now in use there are rented, and it is estimated that if they had been bought in the first place, the city would now own them without having paid out any more money than has been paid in rental. While the report does not say so in so many words, it is the tacit understanding that the compressors are to be used in simply augmenting the supply at No. 1 for a year or more, pending the more complete development of the field at No. 2 station. The deep well pumps will be used at No. 2 station for the purpose of testing the two new wells to be put down there at once, and such other wells as may be sunk in the near future. The committee builds very strongly on the supposition that the water supply at No. 2 is by far the best, and that experiments will show that the field there is practically inexhaustible. There is, as stated considerable of theory and contingency, which will not be set out in the report. The revised report, as it will be presented to the council tonight, provides for the installation of a 6,000,000 gallon pump at No. 2, the advertising for the pump to be done at once, so it can be fully installed before next summer; the laying of a new 30-inch suction main to which all wells in No. 2 field shall be connected; the extension of the Van Buren street water main, so as to connect with east and west intersecting lines; the purchase of air compressors for No. 1 station and the installation of an extra tubular boiler if found necessary and recommending the adoption of the metre system which is stated to effect a saving of at least 30 per cent. of water consumption, without any extra cost to the consumer for necessary and legitimate service. In this connection it may be stated that work on drilling the two new wells will be commenced within a few days, the erection of derricks being already under way.

### A TRAVELER'S EXPERIENCE

Both Sides of the Picture.

Sitting in the rotunda of the Planters' hotel, St. Louis, a gentleman who has traveled for many years as salesman, told, reminiscently, of the trials of one constantly on the move.

To the casual observer it looks easy. The traveler wears good clothes, stays at the best hotels, is always in good spirits (apparently, anyway), and is never at a loss for a pleasant word. But the other side of the picture; the loneliness, the nervous tension, the constant mental and physical strain; only the traveler knows that it is not easy to always feel well; that the best of care must be taken of the stomach; that digestion must be perfect or failure is the result.

After trying many methods and remedies, he continued: "I have found that when tired and run down, as the result of indigestion and constipation, nothing helps me so quickly and surely as the Peptorene Heath Tablets. Perfect digestion is at once restored and I meet my customers with renewed nerve and vigor. I certainly would not be without a box of this remarkable remedy." ## THE MARKETS.

Chicago, Nov. 12.—Trade in wheat opened quiet today with December ⅛@¾c to ⅜@½c lower at 72⅜c to 72½c on weaker cables. There were considerable offerings by commission houses and stocks here were well increased. Receipts indicate that the northwestern movement will continue heavy for some time, though there is an improved flour demand. Too copious rains were reported in Argentina, which had a slight bullish influence. What business there was early fluctuated irregularly and at the end of the first hour December had gained a trifle and then sunk back to its lower opening figure again. Local receipts were 160 cars, 26 of contract grade, Minneapolis and Duluth reported 1,050 cars, making a total for the three points of 1,230, against 1,131 last week and 705 the corresponding day a year ago.

Very heavy liquidations on the early bearish news continued to depress December wheat and it sold off to 17⅜c, closing weak, 1⅛@1¼c depressed, at 71¾c.

December corn opened quiet, ⅛@¼c lower, at 59¾c to 59⅝c on lower cables. There was some selling, especially by English houses and though prices advanced ⅛c on small coverings the market turning dull eased to 59½c. Receipts were 150 cars.

December corn followed in the general slump and closed weak at its bottom price, 1¼@1⅜c lower, at 58½@58⅝c.

Decebr oats opened ⅛@¼c down at 39c influenced by other grains and profit-taking. Business was dull early and mostly done in the May account. December sold up ⅛c for few moments after the opening, but went back to its opening price. Receipts were 299 cars.

Provisions were dull at the opening and sold lower on lower prices for hogs. There was some investment demand based on the poor quality of hogs, but the demand was hardly large enough to establish quotations. January pork, which opened unchanged at $15.00, declined 2½c; January lard 2½c lower at $8.57½ and eased a shade. January ribs were not quoted the first hour.

### THE DAY ON WALL STREET.

New York, Nov. 12.—Opening dealings in stocks were not on as large a scale as in recent days, but were well distributed. The government estimate on the corn crop affected western railroads unfavorably and there were some sharp sectional declines in that department. This was offset by gains at other points, Metropolitan Street Railway rising 1¼ and Chicago and Eastern Illinois and Chicago Great Western a point.

Stocks in which there was large profit-taking yesterday and also at today's opening became firmer and wiped out opening losses. The recovery was assisted by a rise of 1⅛ in Amalgamated Copper and an extension of 2½ of Metropolitan Street Railway's rise. Other strong features included Baltimore and Ohio, Canadian Pacific, Great Northern preferred, the Hocking Valley stocks, North American, Tennessee Coal, American Locomotive and Pressed Steel Car preferred. Before 11 o'clock there was a decline in Sugar, Amalgamated Copper and Metropolitan Street Railway of over a point and Great Northern preferred lost 2. This selling caused the standard railroad stocks to decline to the lowest, but some of the minor stocks maintained a firm front. Reactions reached a point or over in several cases. Rutland preferred lost 3.

Large buying orders appeared in the Coalers and for Union Pacific preferred, causing renewed firmness all around. But few stocks rose more than a slight fraction above yesterday's close. Erie first preferred, Reading second preferred, Union Pacific preferred and Manhattan gained 1@1¼. Canadian Pacific group 2 and St. Louis and San Francisco first preferred and Hocking Valley were a point better.

Bonds were irregular.

### KNIGHTS OF LABOR MEET.

Indianapolis, Ind., Nov. 12.—The twenty-fifth annual general assembly of the Knights of Labor opened today in the Masonic Temple. Delegates were present from nearly every state in the union and Canada. At the first session the report of the credentials committee, consisting of Arthur McConnell, Pensacola; I. D. Sanderson, Toronto, and Mr. Yulelck, of Pittsburg, was read and adopted. John W. Hays, of Washington, read the minutes of the last meeting. At the afternoon session general committees were appointed by General Master Workman Simon Burns and the reports of the officers were read. The assembly will continue through the remainder of the week. The Chinese exclusion act and trusts will be considered and it is announced the frequency with which courts grant injunctions against organized labor during strikes will receive attention. The meetings are closed to all but members of the order.

### MINING TOWN DESTROYED.

Cumberland, Md., Nov. 12.—The mining town of Thomas, W. Va., on the West Virginia Central and Pittsburg railway, was almost wiped out by fire, which started at 2 o'clock this morning under Gersberger's hotel. The town was without fire protection and the frame houses fell easy prey to the flames. Twenty business houses and seventy dwellings were consumed. Hundreds are homeless.

### CAN'T FIND THE GIRL.

Superintendent Gorsline is in receipt of a letter from J. H. Fisher, of Kalamazoo, addressed in his care for Mary Fisher, his daughter, who has concluded to cut loose from parental restraint. When Mr. Fisher left the city a day or two ago the daughter was left with an uncle on Wilt street. She is not there now and the officers have been unable to locate her.

### MAY BE SOMETHING DOING.

There is a persistent rumor on the street that there will be something doing at the council meeting tonight that may be in the nature of a surprise. The rumor has it that a minority report on the interurban question is not one of the most remote possibilities.

### CONSUL DICKINSON REMINDS BULGARIA

That He Had Been Promised Aid to Rescue Miss Stone—Gets Another Promise.

Sofia, Bulgaria, Nov. 12.—Consul General Dickinson, of Constantinople, has supplemented his verbal representations to the Bulgarian government by a note today in which he recapitulates the history of the abduction by brigands of Miss Ellen M. Stone and her companion, Madame Tsilka, and the steps taken to obtain her release, and reminds the foreign minister of his promis to give every assistance. He cites instances where the attitude of subordinate officials has not conformed with this assurance. Finally, Mr Dickinson repeats his demand for the non-interference of the government in the negotiations.

The government's reply, according to the opinion expressed in official circles, will set forth that while hesitating to establish the precedent that the government give protection to brigands, in treating for the ransom of captives in the present case, involving the safety of two ladies, the government, as an act of courtesy and humanity, will comply with Mr. Dickinson's request.

### NEW CONSTITUTION CARRIES.

Birmingham, Ala., Nov. 12.—The new constitution has been ratified by a large majority. It will probably reach 30,000 and will not fall below 25,000. The anti-ratificationists charge fraud in a number of counties, notably Jefferson, Dallas and Pickens. This county gave 2,500 majority for the new constitution. General Seeley, chairman of the anti-ratificationists, claims that he has won the fight, but rather indicates that he does not expect to have it so recorded. He states, however, that he will push the fight to the end. All things told, the new constitution has been adopted and will be the law of Alabama.

**Training**

Is indispensable to athletic success. In training, much stress is laid upon diet; careful attention to the quantity and quality of the food eaten, with regularity of meals. That is the secret of strength for every man. No man can be stronger than his stomach. The careless and irregular eating, of business men, causes disease of the stomach and its allied organs of digestion and nutrition. There can be no sound health until these diseases are cured.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition, and enables the body to be built up into vigorous health by the assimilation of the nutrition extracted from food.

"I was taken with the grippe, which resulted in heart and stomach trouble," writes Mr. T. E. Caudill, of Montland, Alleghany Co., N. C. "I was unable to do anything a good part of the time. I wrote to Dr. Pierce about my condition, having full confidence in his medicine. He advised me to take his 'Golden Medical Discovery,' which I did. Before I had finished the second bottle I began to feel better. I have used nearly six bottles. I feel thankful to God for the benefit I have received from Dr. Pierce's Golden Medical Discovery. I can highly recommend it to all persons as a good and safe medicine."

Dr. Pierce's Pellets cure constipation.

# TO BOUBLE PLANT

ELECTRIC WORKS TOO SMALL FOR THE BUSINESS.

HAVE LEASED MORE GROUND

AND WILL ADD TO THE SHOPS AND WORKING FORCE.

ARRESTED FOR MAIL ROBBERY

A PENNSYLVANIA OPERATOR IN TROUBLE.

The mail last evening brought to General Manager J. J. Wood, of the Fort Wayne Electric company, a letter from President Joseph Ramsey, of the Wabash, bearing the glad tidings that the latter company had decided to lease to the Electric company a tract of land adjoining the Electric works for a term of forty years. The terms are very reasonable and are gladly accepted by the Electric people. Mr. Woods secured an appropriation from the General Electric company several months ago to cover the cost of a new boiler plant, as stated at the time by The Sentinel, but did not order the boilers then because he could not secure the ground upon which to place them. Mr. Ramsey's letter removes that difficulty and the orders for the boilers will be placed at once. Orders for other power machinery will follow in due time and the plant will be increased from time to time as the business may require. Mr. Wood expresses the opinion that a couple years will find 1,300 men employed in the works, and he has good reasons for believing it. Mr. Wood stated, when the General Electric company assumed charge of the works, that the force would reach 450 men inside of three years and the increase has been considerably greater. There are 537 names on the pay rolls today. In point of workmen employed and the amount of money disbursed monthly in the way of salaries and wages, the Fort Wayne Electric company is fast getting in the front ranks being the third largest institution in the city now, the Pennsylvania company and the Bass Foundry and Machine company only leading in the number of employes.

### HE ROBBED THE MAILS.

Van Wert, O. Nov., 12.—Warren D. Melendy, night telegraph operator at the Pennsylvania railroad station here, is under arrest on the charge of robbing mail pouches left in his office over night. It is claimed Melendy has cofessed. He has been taken to Toledo by United States Marshal Wagner.

### SMASHER CAUGHT STEALING.

For some months the Pennsylvania company was annoyed by the disappearance of articles of baggage from certain trains, and the police department set about to discover the leakage. A certain baggage man was suspected and a decoy was sent through this department with a view of catching him. The articles used were a pair of new gloves and a bolt of ribbon. The scheme worked well, as the gloves and ribbons were missing, and a search revealed them in the baggageman's possession. He was arrested. The guilty man was employed in the capacity of baggageman twenty-seven years on the eastern division.

### WILL INSPECT THE ROAD.

Tomorrow the officials of the western division of the Pittsburg, Fort Wayne and Chicago road will start upon a two days' inspection of the line. The start will be made at Crestline and the train will run slow, stopping at all places needing particular attention, and arrive in this city in the evening. Thursday morning it will start upon an inspection of the western end of the division and spend the entire day in passing over that part of the line. Included in the party will be Supt. J. B. McKim, Civil Engineer W. B. Blake, Division Operator J. G. Jennings, Trainmaster J. F. Patterson, Master Mechanic B. Fitzpatrick and Road Foreman C. R. Colmey.

### HARRY MEISSE WILL RETIRE.

Harry Moissa, tax agent of the Grand Rapids and Indiana road, will retire from that office Jan. 1. He has under consideration three or four propositions in a business way, but has not fully decided upon the course he will pursue when at liberty to make a choice. Harry is an energetic and ambitious young fellow, possessed of good, sound sense and no little experience in business, and will make a success of any work in which he may engage. He probably believes that the energy expended in behalf of the railway interests would bring better results to himself if directed in another line, and he is probably correct. Mr. Meisse has been with the Grand Rapids and Indiana road for several years. While his title is "tax agent," he is often called upon to officiate as claim agent.

### HEAVY FREIGHT BUSINESS.

The Lake Erie and Western is doing the heaviest freight business of its history, and could do a greater business if it had the equipment. The yards in this city were in a state of congestion for awhile last night. Extra night trains, something unknown before, have been sent out on several occasions lately.

### HIRED SOME MORE MEN.

Another increase in the force of workmen at the Wabash shops occured this morning when William N. Miller, G. Baker and J. A. Long, machinists, were given employment. These men were formerly employed in the Erie shops at Huntington.

### PROMOTED TO FOREMAN.

Theodore Bandau, a boilermaker, has received the appointment of foreman of that department at the Ashley shops of the Wabash, which are under the supervision of General Boiler Foreman James Murray. Mr. Bandau has been in this city about two years. Before coming here he was employed in the company's shops at Peru about five years.

### RECOGNIZE FAITHFUL MEN.

Last week 200 trainmen on the Louisville and Nashville road received an order for winter uniforms, the same to be paid for by the company. A note accompanying each order explained that the company appreciated the good work of its old employes and adopted that method of expressing the same.

### ANOTHER PROMOTION.

John Pope, day messenger, has been advanced to the position of night yard clerk, freight department, of the Pittsburg, vice Harry Donivan, who was promoted yesterday. This promotion is made upon the merits of the man affected and is only a step to others that are sure to come.

### INSURANCE INSPECTOR OUT.

Mr. Newburg, insurance inspector for the Peennsylvania company, is out on the Grand Rapids and Indiana road today, inspecting the insured property. He went north on train No. 7 this morning.

### WILL ENLARGE THE PLANTS.

There is an unprecedented demand for American locomotives, not only for domestic use, but for service in foreign lands. Every locomotive shop in the country is running to its full capacity and is still away behind orders for engines. The Sentiel last Saturday mentioned the fact that the Brooks locomotive works were to be enlarged to double their present capacity and now comes the news that all of the shops of the American Locomotive company are to be enlarged, some of them to a greater extent than the Brooks works. All the railway locomotive shops are working a full complement of men and some of them are working overtime. Only a few of the railway shops build locomotives nowadays, having all they can attend to in keeping the locomotives already on hand in repair.

**Beauty More Than Skin Deep.**

Nature Has Provided What Man Has Failed to Create.

"An internal cosmetic" is hardly what Alma-Bromo Salt can be called, but in its effect upon the complexion it is vastly superior to any preparation to be applied externally. Cosmetics, lotions, complexion creams, etc., do not and cannot reach the seat of the trouble, which is internal.

Faulty digestion, particularly that which takes place in the intestines, chronic constipation, with its attendant derangement of the functions of the liver and kidneys, result in an accumulation of poisonous matter which should pass off naturally but which instead is absorbed by the blood. This, in course of circulation, is absorbed by the small glands of the skin, causing discoloration, roughness and eruptions.

The regular and thorough cleansing of the bowels will remove all these poisons, relieve the liver and kidneys, and leave the skin soft, smooth, clean, free from all sallowness, roughness and eruptions.

Alma-Bromo Salt does this. It is nature's remedy for constipation and all attendant troubles. It is the evaporated product, in effervescent form, of Alma-Bromo Spring Water, coming from more than half a mile below the surface, at Alma, Mich.

The staff of physicians at the Alma Sanitarium have used this water for many years in the different forms of nervous, intestinal and liver and kidney affections, including chronic constipation, and find that it surpasses all artificial preparations for this class of disorders.

The pleasing taste of Alma-Bromo Salt, together with its delightful effervescence, removes the disagreeable feeling which usually attends medicine-taking.

AFTER EQUINOX

This is the time of year for those with weak lungs or a tendency to heavy colds to fortify themselves against exposure by taking Scott's Emulsion.

Regular doses give great protection to the throat and lungs. What's the use of staying near the edge when such easy treatment will keep you out of danger.

For obstinate colds, for old coughs, for catarrh and bronchitis Scott's Emulsion is a standard remedy. You can feel the effects of even a small bottle.

We'll send you a little to try, if you like.

### ARE ABOUT COMPLETED.

The two big amalgamators for the Consolidated Mining company, of Dahlonega, Ga., which are being put together at the Bass shops, are about completed and it is expected that one of them will be shipped to the company this week. The machines are the invention of Dr. Hicks and the Hicks company has an order for fifteen to be shipped to New Zealand on January 1.

### YARD CLERK WILL MARRY.

Mr. and Mrs. Frederick Kanne have issued invitations to the wedding of their daughter, Miss Carrie E., to George McManigal, who is employed in the offices in the east yards of the Pittsburg. The marriage ceremony will take place at the bride's home, 164 Walton avenue, on Christmas day, Wednesday, Dec. 25, at 4 p. m. Mr. Kanne is city salesman for Fisher Bros. and his daughter, the bride-to-be, is a well known and highly respected young lady and an elocutionist of more than ordinary ability.

## JAIL FOR EDITORS

JUDGE HANECY SEVERE WITH HEARST'S WRITERS.

PUNISHES FOR CONTEMPT

MANAGING EDITOR TO SERVE FORTY DAYS.

H. S. CANFIELD THIRTY DAYS

TO DEAL WITH OTHERS WHEN HE GETS THEM.

Chicago, Nov. 12.—On a charge of contempt of court Judge Hanecy today sentenced Andrew M. Lawrence, managing editor of Hearst's Chicago American, to forty days in the county jail. The sentence of H. S. Canfield, who wrote the article objectionable to the court, was fixed at thirty days in jail. The cases against S. S. Carvalho, financial manager of the paper, and John C. Hammond, assistant city editor, were dismissed. Judge Hanecy declared that the cases against W. H. Hearst, majority stockholder of the paper; Homer Davenport, cartoonist, and Clare Briggs, also a cartoonist, would stand until such time as these respondents could be brought into court by the sheriff. Former Governor Altgeld, counsel for the respondents, entered a formal exception to the decision. "This case, I may say," the court remarked, "is not appealable. You may file a bill of exceptions for a writ of error, however. I am willing to delay the serving of papers on Mr. Lawrence and Mr. Canfield till you have drawn your bill."

"We do not feel that we have any favors coming from this court," Mr. Altgeld answered. "We are much obliged."

The court room was crowded to the limit when Judge Hanecy entered.

WHERE THE TROUBLE BEGAN.

The article in the American upon which the proceedings in contempt were based was a criticism of the court's decision on an application for the forfeiture of the charter of the People's Gas, Light and Coke company.

Judge Hanecy said if the matter published were allowed to go unnoticed by the court it paved the way for other attacks and that the judiciary, if not held in respect, would fall, with all democratic government. The article, the court declared, was not merely an attack on the people and on the court, but a bold threat to every other court. It should, therefore, not go unpunished.

A few minutes after the rendering of the decision and the imposition of the sentences as to Lawrence and Canfield, Judge Dunne, upon application, issued a writ of habeas corpus as to them, returnable immediately.

Paris, Nov. 12.—President Loubet presided at the cabinet council today. The foreign minister, M. Delcasse, read the letter which the Turkish foreign minister, Tewfik Pasha, wrote to M. Bapst, councillor of the French embassy in Constantinople, notifying him of the signing of the imperial irade providing for the execution of the sultan's engagements with the French government, and announced that he had notified the porte that diplomatic relations between France and Turkey had been resumed and that Admiral Caillard's squadron had left the siland of Mitylene.

KENTUCKY CASE SETTLED.

At the conclusion of a conference between the president and Senator Deboe, Representative Boreing and Commissioner of Internal Revenue Yerkes, the president agreed to appoint E. A. ## RATHBUN TELLS MANY TALES

INSURANCE SWINDLER IN A TIGHT CORNER.

Police Believe the Dead Man in the Case Was Murdered and Are Pursuing That Theory.

Louisville, Ky., Nov. 12.—A thorough investigation is being made into the details of an alleged attempt of Newell C. Rathbun to defraud the Metropolitan Insurance company. Rathbun admits that he proposed to secure the body of a dead man, dress it in his own clothes, place it in a Jeffersonville, Ind., hotel and then burn the hotel, in the belief that the body would be identified as his and the insurance money paid. The police believe the body of the man found was that of a murdered man.

Having, as they believe, established the identity of the supposed murdered man, the detectives are now busy devising the case against Rathbun. He has told several stories, but the one that he stuck to the longest and which he still insists is true, is that he formed the conspiracy in conjunction with a deserter from the regular army by the name of Blanchard. He states that he and Blanchard met here by agreement and prepared the details of the plot. Blanchard agreed to provide a corpse if Rathbun would set fire to the building after the corpse was prepared. "Blanchard brought the body there," said Rathbun. "I had nothing to do with killing him, and doubt if he was killed. The man may have died accidentally, but I do not know anything about this. Blanchard, however, acted the fool in flushing the game before the hotel could be set on fire. I hope you will find him."

RIVAL BISCUIT TRUST.

Cincinnati, Nov. 12.—The general conference of Independent Cracker and Biscuit bakers appointed the following committee on permanent organization:

George A. Ward, of Pittsburg, chairman; J. G. Young, Boston; B. C. Starr, Cleveland; C. M. Linguist, Denver; W. L. Lenhart, Brownville, Pa.; Edward Graves, Washington, D. C.; and Harry Fox, Chicago.

The committee on ways and means consists of J. G. Annon, Green Bay, Wis.; chairman; C. Streitman, Cincinnati, and Frank Goetz, Manchester, Conn. These committees deliberated over the matter of permanent organization today, and they expected to make reports that will open a way to allow all independent bakers to join without forming a counter-trust to the National Biscuit company, which they oppose.

## BACK AT DURBIN

GOVERNOR BECKHAM GRILLS INDIANA GOVERNOR.

CHARGES POLITICAL PLOT

IN REFUSAL TO YIELD THE KENTUCKY FUGITIVES.

CITES LAW AND EVIDENCE

A HOT REPLY TO DURBIN'S RECENT LETTER.

Frankfort, Ky., Nov. 12—Governor Beckham of Kentucky has addressed to Governor Durbin of Indiana a letter replying to the criticism by the latter executive of the courts and officials of Kentucky in his recent letter refusing to honor the requisition for Taylor and Finley, wanted for alleged complicity in the assassination of Governor Goebel. He severely arraigned Durbin for his refusal, charging that in doing so he violated his oath of office to support the constitution of the United States and that he became "a party after the fact to the most infamous crime in the history of this state, the coldblooded and dastardly murder of an eminent and distinguished citizen of Kentucky."

The Kentucky executive also charges that Governor Durbin's action was the result of a political bargain made before his election to office, and characterizes his charges against the courts and officials of Kentucky as slanderous and inexcusable misrepresentations. He takes the stand that the governor of a state has no discretionary powers, but only ministerial power, in the honoring of legally drawn requisitions from other states, and this is taken here as an indication that steps will shortly be taken in the courts to compel Governor Durbin by mandamus to honor the requisitions. If such proceedings are instituted they will be in the courts of Indiana and taken on appeal to the supreme court.

BECKHAM BEGINS HIS REPLY.

In addressing Governor Durbin, Governor Beckham says:

"Frankfort, Ky., Nov. 9, 1901.—Sir: Your refusal to honor the requisitions some time ago sent you by me asking for the extradition of W. S. Taylor and Charles Finley, fugitives from justice from this state, charged with being accessories to the murder of William Goebel, was not unexpected, but the remarkable letter with which you accompanied the return of the papers was indeed a surprise to me, and I sincerely regret the necessity of this reply. It is true I had been reliably informed that you had incurred campaign obligations which committed you to the protection of these two valuable adjuncts to your political fortunes and that they had been promised immunity from arrest under requisitions from Kentucky authorities in the event of your election as governor. The information has been confirmed by your conduct and by the complete sense of protection under which these two men seem to have rested since your incumbency of the office. You are at least entitled to the credit of having faithfully carried out your reputed agreement with them. However, in doing so you have violated your oath of office and brought discredit upon the high position you hold.

SAYS KENTUCKY IS INSULTED.

"But even with this understanding of your embarrassing position, confronted, as you were, on the one side by the law and justice on the by a miserable political bargain. I could not believe that you would so far forego the dignity and obligations of your office and the courteous relations that exist among the chief executives of the various states as to go out of your way to offer a gratuitous insult to the people of Kentucky and to caste a reflection upon the courts and public officials of the state.

"If these slanderous charges had come from you as one individual then they would be treated with the silent contempt they so justly deserve, but as they came from you as the governor of a great state I shall not hesitate to hold you up to public scorn and show how unjust and unfounded are the willful and inexcusable misrepresentations in your letter.

DEFENDS JUDGE CANTRILL.

"Passing on from showing how you have disregarded the constitution and law of your country, I will proceed to show how you have perverted the record in the recent trial of Caleb Powers and sought by such action to bring discredit upon an honorable and upright judge whose life of public service has been unstained by a single dishonorable act and whose character as a man and as a jurist stands unimpeached among the good people of this state.

"You criticize the recent trial of Powers and denounce Judge Cantrill for his instructions to the jury. You say in your letter he instructed it 'that it might convict on the testimony of one alleged accomplice if that testimony was corroborated by that of another alleged accomplice; that it might convict the defendant for the act of another man, to which the defendant had never agreed,' etc.

"To show how untrue the statement is, I produce from the record the exact instruction of the judge in that case on this point: '8. The jury cannot convict the defendant upon the testimony of an accomplice or of accomplices unless the testimony be corroborated by other evidence tending to connect the defendant with the commission of the offense, and the corroboration is not sufficient if it merely shows that the offense was committed and the circumstances thereof.'

"Is this a manly way to attack anyone? Is it right and proper to manufacture evidence to blacken, if possible, his character? You insinuate, too, that the judge has been influenced in his trials of these cases by his aspirations as a candidate for

GOLD OUT OF SIGHT.

New York, Nov. 12.—Arrivals from the interior of Colombia bring the news that the exchange of paper money has advanced to the highest point yet reached, says the Colon, Colombia, correspondent of the Herald. A United States dollar is actually worth forty-five dollars in national currency in Bogota and forty-eight dollars in department money. Merchants of Barranquilla believe that the value of the paper money will further depreciate and are holding as little as possible. They are converting all the paper money they get into coffee and other merchandise.

Miss Clark, who is 18 years old and lives with the family of Mrs. John Grayson, near the town, started after dark to accompany two children to a neighbor's. While in the highway, on her return home, some person unknown overtook her and threw the contents of a bottle in her face. Miss Clark's screams brought aid, but the assailint escaped.

FOOTBALL LEADS TO MURDER.

Terre Haute, Ind., Nov. 12.—When Louis Lumley, aged 17, became angered in a football game, he made a menacing demonstration with a revolver. Charles Wilson, aged 24, also in the game, took the revolver from him, but later, when Lumley seemed to be pacified, handed it back to him. As he did so Lumley shot him, the bullet entering his mouth and lodging in the neck, causing what may be a fatal wound. Both young men are coal miners at Coal Bluff. Lumley was arrested.

Mrs. J. W. Thompson returned this morning from a visit at Chicago.

## MAJOR STEVENSON COMING

BATTERY INSPECTION WEDNESDAY EVENING.

Officer Just Appointed by Gov. Durbin Is Well Known Among Fort Wayne Soldiers.

The annual inspection of battery B, light artillery, Indiana National Guard, will occur tomorrow evening at the armory in the Saengerbund building, and Captain Ranke's men have been in preparation for the event for several days.

It will be conducted by the new head of the artillery section of the guard, Major F. E. Stevenson, of Rockville, who was recently appointed by Governor Durbin to succeed Major Schanz, of Attica. Major Stevenson will reach the city tomorrow afternoon.

The new major's visit will not be his first to Fort Wayne. He was in command of the battery which formerly existed at Rockville, and was here with that organization at the time the state encampment was held in Fort Wayne. Later Major Stevenson's battery was in Fort Wayne during the centennial, and participated in the drills securing a prize of $100 on that occasion. Major Stevenson is quite well known among Fort Wayne members of the national guard.

INSPECT THE COMMANDERY.

Officers of Fort Wayne Commandery No. 4, Knights Templar, have just been advised that the annual inspection of that organization will be held on Wednesday evening, Nov. 27, by the grand commander of the Knights Templar of Indiana, Hon. L. P. Newby, of Knightstown. The annual inspections are important to the membership, for they are rigid in character, and include examination of the work, records, quarters, uniforms, proficiency of officers and general status of the Knights Templar organizations. The local membership will arrange to receive Senator Newby in a manner befitting his important position.

ONCE LIVED IN FORT WAYNE.

Roanoke, Ind., Nov. 12.—Mrs. Sarah Zent is dead at her home in this place, aged 60 years. Mrs. Zent was the widow of the late Col. S. M. Zent, of the Thirteenth Indiana volunteers, whose death occurred in 1895. She was widely known and universally esteemed. With the exception of temporary residence in Fort Wayne, Columbia City and Lagonier here entire life had been spent at Roanoke.

THEY MOURN FOR LI.

Chinese residents of Fort Wayne mourn deeply over the death of Li Hung Chang, who was regarded as second only to the emperor himself, and late Saturday evening they gathered at a laundry on West Wayne street and held appropriate services of a memorial character. After burning incense the Celestials united in chanting a funeral dirge.

HOLD ANNUAL MEETING.

The annual congregational meeting of Christ's Lutheran church will be held tomorrow evening at the church. There will be the election of officers and other business, followed by a social hour and free lunch at the close.

He will express the opinion that this branch of the work of the department is of the greatest utility, and will plead for most liberal consideration on the part of congress. He will explain in some detail the recent action of the department in the matter of second-class mail matter, taking the position that the law granting a rate of one cent per pound, contemplated benefit only to absolutely legitimate newspapers with legitimate subscription lists.

# INFLUENCE

MENTAL AND MORAL.

The state of the mother during gestation may influence the whole future of the child. It is highly important that pregnant women meet the issue with calm composure and with as little pain as possible. Animals of the lower kingdom require no outside aid to undergo painless gestation and delivery of young, for they are not physically hampered or deformed by dress.

Woman suffer agonies when with child, unless they make use of the discoveries of art and science that counteract the effect of dress follies. To-day in every drug store there is one liniment sold at $1 per bottle, which excels in virtue and safeness any like remedy, to be applied externally by hand once a day on the skin in the region of the uterus. It is not a drug for you to swallow. It is Mother's Friend, so named because it has never failed to give comfort and ease to any woman who ever used it in motherhood.

## CHIEF OF THE ROYCROFTERS

### BRILLIANT LECTURE BY ELBERT HUBBARD.

### Tells About That Interesting Colony at West Jefferson Street Church of Christ.

Elbert Hubbard, "Fra Albertus," chief of the Roycroft workers, editor of the Philistine, philosopher, scholar and author of many brief stories that have become famous all over the country, was heard Monday evening at the West Jefferson street Church of Christ, his lecture being the opening one of the People's Lecture course. The audience, though not a large one, was thoroughly appreciative and listened with unabated interest for more than an hour and a half to Fra Albertus' "preachment," as he called it.

Mr. Hubbard's subject was "Bookmaking," which is one of the chief occupations of the Roycrofters. "The Roycroft shops," he said, "is a place where 300 philosophers make books and think. We don't make books to sell for fourteen cents on Fridays; no, indeed; our books sell from $2 to $250. Our work is said to be original. It is not. We are making books as near as we can like those made in Venice in 1492 by the monks. Our books are high-class, therefore high priced."

Mr. Hubbard then entered into a detailed description of the unique social order of which he is the head, frequently digressing to tell some interesting story about himself and the people he has met. Fra Albertus is a lover of children and believes that children should be heard as well as seen. Every child is an embryo artist and shouldn't be punished if he marks on the wall or soils his clothes making mud pies. The work of the hands is a sure reflector of character. Therefore, if a child wants to cut up your Munsey or Home Journal, it is much wiser to let him do it than to repress the instinct of art.

Mr. Hubbard believes in having music in the work room. It is a good business investment. Music has a soothing as well as a stimulating effect and the more that can be absorbed the better. Music absorbed into the being comes out at the finger tips. Mr. Hubbard regards the kindergarten as the greatest step ever taken in practical education. In the kindergarten the child is instructed as well as amused and the artistic sense is developed as well as the practical. "Art is the expression of a man's joy in his work" is a tart definition that holds a high place in the estimation of Fra Albertus. He believes in finding out in what direction a child's taste lies and developing the child's career along that line. He believes in making work attractive and not teaching a child to regard it as a punishment, and the Roycroft shops at East Aurora, N. Y., are operated according to these principles. Mr. Hubbard believes in running things on a co-operative basis and one of his favorite maxims is, "One way to succeed is to do something for someone else." He does not believe in giving a dollar and getting nothing in return; for every dollar paid out a dollar's worth should be received, "or a dollar and ten cents' worth," he added, naively. Mr. Hubbard caused a ripple of amusement by saying that a preacher who prepared a sermon got more benefit from it than the congregation, and applied the same rule to a club woman who prepared a careful article to be read before her club.

There are good points in everyone; the boy who is expelled from school is possessed of a surplus energy, he is full of impressions to which he desires to give expression, and is not necessarily bad. Mr. Hubbard is charitable in the broadest sense and believes that there are no naturally bad people.

Fra Albertus possesses a fund of dry humor which is continually cropping out in his discourse. He is an excellent speaker and smiles quite broadly when he tells a joke on himself. He has an exhaustless store of amusing anecdotes and his stories have the distinction of being original; he never tells any he reads. Fra Albertus may live in a little town and be the editor of a little magazine, but anyone that imagines he is a little man makes a big mistake.

A GREAT MAN'S IDEA.

GENIUS, as Ruskin defines it, is simply a superior power of seeing. Have you the genius to see how important an element in the success of your house-keeping is the use of Ivory Soap? Judged by the work it does Ivory is the cheapest soap in America to-day. It is harmless. Embroideries, laces and delicate stuffs should be washed only with Ivory Soap.

## BAD DREAMS

Caused by Coffee.

"I have been a coffee drinker, more or less, ever since I can remember, until a few months ago I became more and more nervous and irritable, and finally I could not sleep at night, for I was horribly disturbed by dreams of all sorts and a species of distressing nightmare.

"Finally, after hearing the experience of numbers of friends who had quit coffee and gone to drinking Postum Food Coffee, and learning of the great benefits they had derived, I concluded coffee must be the cause of my trouble, so I got some Postum Food Coffee and had it made strictly according to directions.

"I was astonished at the flavor and taste. It entirely took the place of coffee, and to my very great satisfaction, I began to sleep peacefully and sweetly. My nerves improved, and I wish I could warn every man, woman and child from the unwholesome drug, ordinary coffee.

"eople really do not appreciate or realize what a powerful drug it is and what terrible effect it has on the human system. If they did, hardly a pound of it would be sold. I would never think of going back to coffee again. I would almost as soon think of putting my hand in a fire after I had once been burned.

"A young lady friend of ours had stomach trouble for a long time, and could not get well as long as she used coffee. She finally quit coffee and began the use of Postum Food Coffee and is now perfectly well. Yours for health. Dont publish my name."

---

We bow low to the genius of young Mr. Pulz, who eloped yesterday with one of this city's fair daughters. There is no hilarity in an elopement if it is kept a secret. Mr. Pulz appreciated this and accordingly notified the newspapers of what he had done, where he had gone and what he was going to do. Before the sun had gone down on his achievement it was the town talk and the elopement therefore a shrieking success.

### NOTHING DONE OR DOING.

After months given to consideration of the interurban issue, the city council is found to have been traveling in a circle. With the action at last night's meeting of the committee of the whole the council is brought up to where it started. So far as any settlement of the interurban question is concerned nothing has been accomplished. The decision to refer all interurban matters back to the board of public works has the appearance of an essay to escape responsibility for anything that may or may not be done.

The council does not appear to be very deeply sensible of its obligations to deal wisely and determinedly with these public matters. Where the people have looked for solution of these vexed difficulties they have found only the hole from which the council has backed out. Such a course is harmful. It leaves the whole matter to be threshed out and gone over again and places settlement of the question indefinitely in the future. One course or another should be decided upon.

We have urged and urge again that the council, the board of works and the mayor, as the three elements of the city government whose approval is essential to the carrying out of any proposition, get together and agree upon some general policy for the treatment of interurban railways. If the whole matter must be thrown back upon some contingency of which the Fort Wayne Traction company is to be the arbiter, let it be done at once, so that projectors of interurban enterprises and the people of this city may know what to expect. If the interurban lines are to have entrances and terminals independent of the traction company, what common sense is there in pawing the matter over week after week and month after month and in the end doing nothing?

The city council meets in regular session tonight. We shall be glad to have brought forth an excuse for not reaching some kind of determination at this meeting.

Those who were fortunate to hear Mr. Elbert Hubbard at the West Jefferson street Church of Christ last evening must have been impressed by his philosophy, which holds that every man, woman and child, no matter of how unpromising character, can in some way be made useful to society. Of course such a view does not comprehend the inherently vicious and depraved, but rather the unfortunate, the aimless and dissatisfied. It doubtless is true that nearly every person is good for something, that nearly every person can do something well, accomplish self-maintenance and contribute something to the general good of society. Mr. Hubbard's Roycroft community at East Aurora, New York, has exemplified this most conspicuously. It is a good lesson that more should learn.

## MUSTER INTO LAWTON POST

### OSSIAN VETERANS WILL BE RECEIVED.

### Members of Defunct Grand Army Post Will Join Fort Wayne Organization.

An interesting ceremony will occur at Ossian Thursday evening, by which quite a large number of veteran soldiers there will become affiliated with a Fort Wayne Grand Army post.

Some years ago a post of the Grand Army was organized at Ossian, but its career was not a thriving one and a few months ago the membership, discouraged in the attempt to maintain an organization, disbanded. Several of the old soldiers, loth to give up their membership in the Grand Army, made overtures to the officers of Lawton post, No. 500, in this city, with the result that the Ossian veterans will be received in a body into the ranks of Lawton post.

Thursday morning a detail of the post will go to Ossian to make final arrangements, and a larger delegation will follow on the afternoon train. Thursday evening will occur the muster ceremony, in charge of B. W. Skelton, post commander of Lawton post, and the Ossian soldiers will then be regularly received as members of the Fort Wayne body.

### WILL GET THEM ALL.

Kansas City, Nov. 12.—Twelve of the twenty-six convicts who escaped from the Fort Leavenworth prison last week, were still at large this morning, no additional captures having been reported during the night. The ringleader, Frank Thompson, was captured last night and now the prison officials feel confident of securing the rest of the men now at large. Warden McClaughey over the long distance telephone early today said that reports from his deputies were to the effect that the convicts were being followed closely and, it is probable, will be taken soon.

(Continued From First Page.)

the United States senate. If rumor speak true you are not above suspicion in that respect yourself, and the rancorous spirit of your letter shows that you are making a bid for the support of the implacables and radicals in your own party with a view to that end. I doubt the wisdom of your policy to secure such an honor.

CHARGES AGAINST TAYLOR

"There is no doubt now that the assassination of William Goebel on the state capitol grounds was the result of a deliberate and carefully planned conspiracy; that he was shot from a window in the office of the secretary of state not over forty feet from the governor's office, where W. S. Taylor was when the shot was fired; that Taylor immediately had all entrances to the building guarded and forbade the admission of the peace officers who sought to enter and search for the assassin; that he threw every obstacle in his power in the way of preventing the arrest and conviction of anyone suspected of the crime; that he issued his pardons to some of those under suspicion even before their arrest and indictment; that he was presumably the beneficiary in the death of William Goebel, who was contesting with him the title to the governorship of Kentucky; that he refused to recognize the writ of habeas corpus, filled the state capitol with over 1,000 armed desperadoes and threatened the entire state with revolution and anarchy, and that today he is a cringing supplicant at your feet, begging that he be not given over to trail on an indictment charging him with being a conspirator in the murder of his successful rival.

"It would be no satisfaction to anyone to punish an innocent man for this crime. The mind of any civilized man revolts at such an idea. The brothers and friends of the murdered governor simply demand the punishment of those who conspired to kill him. No political advantage could be gained by anyone or any party in convicting the two self-confessed criminals now basking in the smiles of your protecting care.

USE OF REWARD FUND.

"You ask again what was the object in appropriating $100,000 for the conviction of the suspected murderers of William Goebel? The same object which prompted the government to pay secret service men and other detectives to discover if possible whether the miserable wretch Czolgosz had any confederates in his dastardly crime. Only $7,000 has been spent of the Goebel reward fund, all in the legitimate expense of the trials, and it is safe to assert that at least that much more has already been spent in the laudable purpose of trying to discover the anarchist plot to murder our lamented president.

"The honored name of Kentucky needs no defense at my hands. Her history is one of which we are justly proud. Over 100 years ago she became a commonwealth in the American union and her pioneer citizens cleared the forests, built homes, schools, churches, established civil government and quickly placed her among the first states of the union. Her people are brave, generous, hospitable and obedient to the law. Life, liberty and property are as safe within her borders as anywhere on earth.

"Only one time in her history were these blessings threatened and that was brought about by these two fugitives whom you harbor and some of their associates. It was then, too, that the great body of Kentuckians showed their splendid character, their forbearance and their profound respect for the law and the constituted authorities, and it was their patient courage at such a critical time that brought order out of chaos, government out of anarchy. Such a people as these could neither be helped by your praise nor harmed by your scurrilous abuse and such people would never knowingly permit anyone to be unjustly deprived of his life or liberty."

Imported Oriental Rugs have to pay an enormous tariff charge when brought into this country, making them unreasonably expensive. Many people have wondered why someone did not make them in the United States, thus enabling the price to be more than cut into right in the middle.

Parties in Philadelphia have taken the matter up and are now turning out some very elegant goods. They are not produced amid the filth and disease breeding conditions, surrounding the manufacture of these goods in Oriental countries.

We have just received the first of these Rugs to be shown in Fort Wayne. See a few samples of them in our small Court street window.

## HAS TENDERED RESIGNATION

### C. W. ORR TO LEAVE HAMILTON NATIONAL BANK.

Will Become Manager for Aetna Life Insurance Company in New General Office Here.

Charles W. Orr, for many years connected with the Hamilton National bank, and for the past fourteen years the assistant cashier of that big financial institution, has tendered his resignation to take effect December 1. Mr. Orr retires to become manager of a general office of the Aetna Life Insurance company, of Hartford, Conn., which is to be established in Fort Wayne.

This announcement will come as a surprise to Mr. Orr's legion of friends. Few men in Fort Wayne are more widely known in business circles, and throughout the twenty-seven years of his connection with the Hamilton bank Mr. Orr has gained the friendship and esteem of the countless people with whom he has transacted business over the bank's counters. He entered the employ of the bank in 1874 as messenger boy, rose through the successive steps in line of promotion to the position which he has occupied for the past fourteen years.

For the past ten years Mr. Orr has been the local representative of the Aetna Life, and when that company determined a short time ago to establish a general office in Fort Wayne through which to handle the business of the thirty-one counties comprising the northern half of Indiana the position of manager was offered him. It was in this connection that Mr. Orr recently made a visit to the east, and while there the arrangements were consummated. Mr. Orr placed his resignation with the bank officials last evening.

The Aetna is the first of the old line eastern insurance companies to place a general office in Fort Wayne, and business will be transacted directly with the home office. The position of manager is regarded as a particularly desirable one, and Mr. Orr will doubtless be splendidly successful in it. He will have direct jurisdiction over the business of the company in the northern part of the state, and it is not unlikely that other big insurance companies will follow the lead of the Aetna and place general offices in this city within a short time. Mr. Orr has leased offices at 32 East Berry street, second floor, and they will be equipped in first-class style.

In addition to his connection with the bank, Mr. Orr has been prominently connected with other financial institutions. He is vice president of the Allen County Loan and Savings association and a director of the Citizens' Trust company. It is stated that the place vacated at the bank will be filled by a series of promotions of the other employes.

## THE NEW JURIES ARE DRAWN

### PANELS FOR CIRCUIT COURT ARE MADE UP.

The November Grand Jury May Not Be Called—Nothing Now to Do The Court News.

Jury Commissioners Henry Hild and William A. Spindler this morning drew the following juries for the November term of the circuit court:

Grand jury—Theodore Thorward, city; Walter Shane, Aboit; Louis Schroeder, jr., city; David Watson, Cedar Creek; Bert Zimmerman, Milan and Frank Gromax, city.

Petit jury—Joseph Storm, St. Joseph township; Jackson B. Hyser, Lafayette; Samuel Webster, Monroe; John D. Carpenter, Jackson; Myron Gorrell, Milan; Theodore Egerman, Adams; Joseph Pierre, city; Gotlieb F. Geller, city; Jacob W. Miller, Jackson; William J. McNabb, Cedar Creek and John Spitler, Cedar Creek.

The petit jury will probably be ordered in some time next week, but it is not likely that the grand jury will be called in at all. At present there are no prisoners in the jail waiting action by the grand jury and there are no cases under investigation that are likely to require their attention.

### ABOUT THE COURT HOUSE.

The case of Lawrence Funk vs. Henry Fuesse is on trial before Judge Aiken in the Superior court. The action is one involving the title to real estate.

Benjamin E. Heaton has filed his bond as notary public with William J. Vesey as surety.

Arthur Burns and John Mason have commenced suit against the Union Cemetery church of Huntertown. The action is on mechanics' liens and the demand in each case is $55.

D. C. Stout, son of Sheriff Stout, is slowly recovering from a severe attack of typhoid pneumonia which has kept him confined to his home for over six weeks.

Edward Dierkes was today taken to Jeffersonville to serve an indeterminate sentence of two to fourteen years. He was in charge of Patrolman Peter Collins.

President Jones and Supervisors Stewart, Smith and Cowden of the board of supervisors of McLean county, Illinois, were visitors at the court house today. They were accompanied by Colonel Read, secretary of the building committee in charge of the construction of a new county building at Bloomington, Ill. The building is about ready for the roof and will cost in the neighborhood of half a million dollars. Next Saturday bids for putting in the furniture will be opened, and it was to inspect the furniture of the Allen county court house that the gentlemen came here. They were chaperoned about the building by President Orff of the local board of commissioners. Their opinions simply echoed the sentiment of all the inspection parties, that have ever visited here, being that Fort Wayne has the finest court house in the country. The party was at Indianapolis yesterday, and left for Chicago at noon today.

Judge Aiken this afternoon granted Rebecca Jackson a divorce from Silas Jackson, and also awarded her the custody of their three minor children.

John W. Ormdorf has filed his final report as administrator of the estate of Agnes Disler, and Margaret Moore has filed her final report as guardian of Ellen Moore, a minor.

In the superior court the case of Adams vs. Swift was dismissed. Shaffner & Co., have been awarded a judgement against A. C. McClaren for $110.25.

## THE RIGHT THING.

### A New Catarrh Cure, Which is Rapidly Coming to the Front.

For several years, Eucalyptol Guaiacol and Hydrastin have been recognized as standard remedies for catarrhal troubles, but they have al-

ways been given separately and only very recently an ingenious chemist succeeded in combining them, together with other antiseptics into a pleasant, effective tablet.

Druggists sell the remedy under the name of Stuart's Catarrh Tablets and it has met with remarkable success in the cure of nasal catarrh, bronchial and throat catarrh and in catarrh of the stomach.

Mr. F. N. Benton, whose address is care of Clark House, Troy, N. Y., says: "When I run up against anything that is good I like to tell people of it. I have been troubled with catarrh more or less for some time. Last winter more than ever. Tried several so-called cures, but did not get any benefit from them. About six weeks ago I bought a 50 cent box of Stuart's Catarrh Tablets and am glad to say that they have done wonders for me and I do not hesitate to let all my friends know that Stuart's Catarrh Tablets are the right thing."

Mr. Geo. J. Casanova of hotel Griffon, West 9th street, New York City writes. "I have commenced using Stuart's Catarrh Tablets and already they have given me better results than any catarrh cure I have ever tried."

A leading physician of Pittsburg advises the use of Stuart's Catarrh Tablets in preference to any other treatment for catarrh of the head, throat and stomach.

He claims they are far superior to inhalers, salves, lotions or powder, and are much more convenient and pleasant to take and are so harmless that little children take them with benefit as they contain no opiate, cocaine or any poisonous drugs.

All druggists sell Stuart's Catarrh Tablets at 50 cents for full size package and they are probably the safest and most reliable cure for any form of catarrh.

## THE NEWS OF THE POLICE

Having returned to the city last evening, Judge Louttit occupied his usual position at police court this morning. He had before him two penitent gentlemen who had yesterday run afoul of masterly jags, which were, however, not of the disorderly kind. Joseph Bennigan said he had been so good lately that he was afraid he was going to get rheumatism and it was to ward that off that he got a drink or two too many yesterday. The judge said he would overlook it this time, but to keep away from that rheumatic feeling in the future. Ira Speck was a sojourner only since yesterday morning. He liked the town pretty well and concluded to locate. He concluded afterward that he did not want to locate here at all and said if allowed to go he would shake the dust of the town from his sandals and hie him hence with great alacrity and becoming haste. The judge told him to hie and the session closed.

Boys with slingshots broke the glass in fire box No. 28, corner of Hayden and Francis streets.

A large window glass in Schmaltz's grocery in Nebraska was broken by roystering boys last night.

## SENT BACK TO THE BOARD

COUNCIL REFERS FRANCHISE MATTERS BACK.

No Recommendations Made, But It is Desired All be Considered at Once—The Waterworks.

There were two important municipal meetings held last night at the city hall, both of which came to naught so far as definite action on the two important public questions is concerned. By a series of what a military man would call strategic evolutions, the council got back to where it started six months ago on the street car question and the waterworks question has moved back of the tape to where it stood two years ago. The council met last evening in committee of the whole to talk over interurban terminals and independent franchises, and after a session of an hour or more, conducted in the most profound secrecy, the committe gravely referred the whole matter back to the board of public works where it originated and referred it without any recommendation whatever. The particular point under consideration last night, was the Harrison street franchise for the Southwestern company. Yesterday it looked as though the franchise would be recommended by a vote of 11 to 9, or possibly 12 to 8. When the time came, however, there were four absentees, and the recommendation failed by a vote of 9 to 7. The other propositions were also discussed in a general way, but there was no vote taken, and Mr. Hanna's proposition was never formally presented. The same is true of Mr. Sordelet's municipal ownership scheme. After a running discussion of something over an hour, Mr. Sordelet made a motion to refer the franchise back to the board of works, and the motion prevailed. Mr. Sordelt said after the meeting that he wanted the board to have all three propositions before it at one time, instead of taking them up separately; he said he would be satisfied with anything that the board did, provided all the propositions were considered together. He denied that he is an obstructionist, but declared that he is anxious only to serve the best interests of the city. There may be a minority report to be presented this evening at the council meeting, when it is expected there will be a full attendance. The minority say they want to be placed on record anyway, and that they are not afraid or ashamed to let the public know where they stand on the important question of street car franchises and interurban privileges. It is more than likely, however, that the Southwestern franchise for Harrison street, Mr. R. B. Hanna's proposition for private construction and Mr. Sordelet's municipal ownership scheme will all be sent back in a bunch to the board of public works.

WATERWORKS MEETING.

The waterworks trustees, the special citizens committee, the council committee and the mayor met last evening and came to the conclusion that Engineer Holt's report which has cost the city a couple of thousand dollars, but which has never been made, is not of sufficient importance to wait on any longer, and concluded to go ahead and make their recommendations in the absence of that long delayed document. Several years ago when it was proposed to put in a large pump at No. 2 station, it was objected to on the ground that there was not enough water to feed the big machine at No. 1, and that neither pump was working to its full capacity; it was shown at that time, that what the city needed was not more pumps, but more water. It was also urged that the water mains leading from No. 2 station were not of sufficient dimensions to carry water from a big pump. Last evening the committee decided that what the city needs is pumps, and recommendations will be made to purchase a 6,000,000 gallon pump for No. 2, and to put in either an air compressor or a deep well battery at No. 1. For years the question has been as to whether air lift or deep well pumps are the best, and the difference of opinion among experts has been the sole bone of contention during all that time. The committee solemnly discussed the matter last night and concluded that they thought one or the other was the best and will so recommend. The committees decision is much in line with the old German's system of determining the sex of young birds immediately after hatching. He said: "You must take a worm and put him in der cage; den if he picks it up, dot is a he, und if she picks it up, dot is a she."

THE REPORT.

The report was not drawn and signed last evening, and this morning after being drawn, it was subjected to some revision before being presented to the committe for signature. It also developed that so far as station No. 1 is concerned, it is still to be considered as an experimental station. The matter of using deep well pumps at that place was thrown out of consideration absolutely, and a distinct recommendation for the purchase of temporary compressors is embodied in the report. The compressors now in use there are rented, and it is estimated that if they had been bought in the first place, the city would now own them without having paid out any more money than has been paid in rental. While the report does not say so in so many words, it is the tacit understanding that the compressors are to be used in simply augmenting the supply at No. 1 for a year or more, pending the more complete development of the field at No. 2 station. The deep well pumps will be used at No. 2 station for the purpose of testing the two new wells to be put down there at once, and such other wells as may be sunk in the near future. The committee builds very strongly on the supposition that the water supply at No. 2 is by far the best, and that experiments will show that the field there is practically inexhaustible. There is, as stated considerable of theory and contingency, which will not be set out in the report. The revised report, as it will be presented to the council tonight, provides for the installation of a 6,000,000 gallon pump at No. 2, the advertising for the pump to be done at once, so it can be fully installed before next summer; the laying of a new 30-inch suction main to which all wells in No. 2 field shall be connected; the extension of the Van Buren street water main, so as to connect with east and west intersecting lines; the purchase of air compressors for No. 1 station and the installation of an extra tubular boiler if found necessary and recommending the adoption of the metre system which is stated to effect a saving of at least 30 per cent. of water consumption, without any extra cost to the consumer for necessary and legitimate service. In this connection it may be stated that work on drilling the two new wells will be commenced within a few days, the erection of derricks being already under way.

A TRAVELER'S EXPERIENCE

Both Sides of the Picture.

Sitting in the rotunda of the Planters' hotel, St. Louis, a gentleman who has traveled for many years as salesman, told, reminiscently, of the trials of one constantly on the move.

To the casual observer it looks easy. The traveler wears good clothes, stays at the best hotels, is always in good spirits (apparently, anywny), and is never at a loss for a pleasant word. But the other side of the picture; the loneliness, the nervous tension, the constant mental and physical strain; only the traveler knows that it is not easy to always feel well; that the best of care must be taken of the stomach; that digestion must be perfect or failure is the result.

After trying many methods and remedies, he continued; "I have found that when tired and run down, as the result of indigestion and constipation, nothing helps me so quickly and surely as the Peptorene Heath Tablets. Perfect digestion is at once restored and I meet my customers with renewed nerve and vigor. I certainly would not be without a box of this remarkable remedy." # THE MARKETS.

Chicago, Nov. 12.—Trade in wheat opened quiet today with December ¼@⅜c to ⅝@¾c lower at 72⅝c to 72½c on weaker cables. There were considerable offerings by commission houses and stocks here were well increased. Receipts indicate that the northwestern movement will continue heavy for some time, though there is an improved flour demand. Too copious rains were reported in Argentina, which had a slight bullish influence. What business there was early fluctuated irregularly and at the end of the first hour December had gained a trifle and then sunk back to its lower opening figure again. Local receipts were 180 cars, 26 of contract grade, Minneapolis and Duluth reported 1,050 cars, making a total for the three points of 1,230, against 1,131 last week and 705 the corresponding day a year ago.

Very heavy liquidations on the early bearish news continued to depress December wheat and it sold off to 17⅝c, closing weak, 1⅛@1¼c depressed, at 71¾c.

December corn opened quiet, ¼@¼c lower, at 59¾c to 59⅝c on lower cables. There was some selling, especially by English houses and though prices advanced ½c on small coverings the market turning dull eased to 59½c. Receipts were 150 cars.

December corn followed in the general slump and closed weak at its bottom price, 1½@1⅝c lower, at 58½@58⅜c.

Deceber oats opened ¼@¼c down at 30c influenced by other grains and profit-taking. Business was dull early and mostly done in the May account. December sold up ⅛c for few moments after the opening, but went back to its opening price. Receipts were 299 cars.

Provisions were dull at the opening and sold lower on lower prices for hogs. There was some investment demand based on the poor quality of hogs, but the demand was hardly large enough to establish quotations. January pork, which opened unchanged at $15.00, declined 2½c; January lard 2½c lower at $8.57½ and eased a shade. January ribs were not quoted the first hour.

THE DAY ON WALL STREET.

New York, Nov. 12.—Opening dealings in stocks were not on as large a scale as in recent days, but were well distributed. The government estimate on the corn crop affected western railroads unfavorably and there were some sharp sectional declines in that department. This was offset by gains at other points, Metropolitan Street Railway rising 1¼ and Chicago and Eastern Illinois and Chicago Great Western a point.

Stocks in which there was large profit-taking yesterday and also at today's opening became firmer and wiped out opening losses. The recovery was assisted by a rise of 1⅛ in Amalgamated Copper and an extension of 2½ of Metropolitan Street Railway's rise. Other strong features included Baltimore and Ohio, Canadian Pacific, Great Northern preferred, the Hocking Valley stocks, North American, Tennessee Coal, American Locomotive and Pressed Steel Car preferred. Before 11 o'clock there was a decline in Sugar, Amalgamated Copper and Metropolitan Street Railway of over a point and Great Northern preferred lost 2. This selling caused the standard railroad stocks to decline to the lowest, but some of the minor stocks maintained a firm front. Reactions reached a point or over in several cases. Rutland preferred lost 3.

Large buying orders appeared in the Coalers and the Union Pacific preferred, causing renewed firmness all around. But few stocks rose more than a slight fraction above yesterday's close. Erie first preferred, Reading second preferred, Union Pacific preferred and Manhattan gained 1@1¼. Canadian Pacific group 2 and St. Louis and San Francisco first preferred and Hocking Valley were a point better.

Bonds were irregular.

Indianapolis, Ind., Nov. 12.—The twenty-fifth annual general assembly of the Knights of Labor opened today in the Masonic Temple. Delegates were present from nearly every state in the union and Canada. At the first session the report of the credentials committee, consisting of Arthur McConnell, Pensacola; I. D. Sanderson, Toronto, and Mr. Yulelck, of Pittsburg, was read and adopted. John W. Hays, of Washington, read the minutes of the last meeting. At the afternoon session general committees were appointed by General Master Workman Simon Burns and the reports of the officers were read. The assembly will continue through the remainder of the week. The Chinese exclusion act and trusts will be considered and it is announced the frequency with which courts grant injunctions against organized labor during strikes will receive attention. The meetings are closed to all but members of the order.

MINING TOWN DESTROYED.

Cumberland, Md., Nov. 12.—The mining town of Thomas, W. Va., on the West Virginia Central and Pittsburg railway, was almost wiped out by fire, which started at 2 o'clock this morning under Gersberger's hotel. The town was without fire protection and the frame houses fell easy prey to the flames. Twenty business houses and seventy dwellings were consumed. Hundreds are homeless.

Superintendent Gorsline is in receipt of a letter from J. H. Fisher, of Kalamazoo, addressed in his care for Mary Fisher, his daughter, who has concluded to cut loose from parental restraint. When Mr. Fisher left the city a day or two ago the daughter was left with an uncle on Wilt street. She is not there now and the officers have been unable to locate her.

MAY BE SOMETHING DOING.

There is a persistent rumor on the street that there will be something doing at the council meeting tonight that may be in the nature of a surprise. The rumor has it that a minority report on the interurban question is not one of the most remote possibilities.

CONSUL DICKINSON REMINDS BULGARIA

That He Had Been Promised Aid to Rescue Miss Stone—Gets Another Promise.

Sofia, Bulgaria, Nov. 12.—Consul General Dickinson, of Constantinople, has supplemented his verbal representations to the Bulgarian government by a note today in which he recapitulates the history of the abduction by brigands of Miss Ellen M. Stone and her companion, Madame Tsilka, and the steps taken to obtain her release, and reminds the foreign minister of his promise to give every assistance. He cites instances where the attitude of subordinate officials has not conformed with this assurance. Finally, Mr Dickinson repeats his demand for the non-interference of the government in the negotiations.

The government's reply, according to the opinion expressed in official circles, will set forth that while hesitating to establish the precedent that the government give protection to brigands, in treating for the ransom of captives in the present case, involving the safety of two ladies, the government, as an act of courtesy and humanity, will comply with Mr. Dickinson's request.

NEW CONSTITUTION CARRIES.

Birmingham, Ala., Nov. 12.—The new constitution has been ratified by a large majority. It will probably reach 30,000 and will not fall below 25,000. The anti-ratificationists charge fraud in a number of counties, notably Jefferson, Dallas and Pickens. This county gave 2,500 majority for the new constitution. General Seeley, chairman of the anti-ratificationists, claims that he has won the fight, but rather indicates that he does not expect to have it so recorded. He states, however, that he will push the fight to the end. All things told, the new constitution has been adopted and will be the law of Alabama.

# Training

Is indispensable to athletic success. In training, much stress is laid upon diet; careful attention to the quantity and quality of the food eaten, with regularity of meals.

That is the secret of strength for every man. No man can be stronger than his stomach. The careless and irregular eating, of business men, causes disease of the stomach and its allied organs of digestion and nutrition. There can be no sound health until these diseases are cured.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition, and enables the body to be built up into vigorous health by the assimilation of the nutrition extracted from food.

"I was taken with the grippe, which resulted in heart and stomach trouble," writes Mr. T. R. Caudill, of Monthaul, Alleghany Co., N. C. "I was unable to do anything a good part of the time. I wrote to Dr. Pierce about my condition, having full confidence in his medicine. He advised me to take his 'Golden Medical Discovery,' which I did. Before I had finished the second bottle I began to feel better. I have used nearly six bottles. I feel thankful to God for the benefit I have received from Dr. Pierce's Golden Medical Discovery. I can highly recommend it to all persons as a good and safe medicine."

# TO DOUBLE PLANT

ELECTRIC WORKS TOO SMALL FOR THE BUSINESS.

HAVE LEASED MORE GROUND

AND WILL ADD TO THE SHOPS AND WORKING FORCE.

ARRESTED FOR MAIL ROBBERY

A PENNSYLVANIA OPERATOR IN TROUBLE.

The mail last evening brought to General Manager J. J. Wood, of the Fort Wayne Electric company, a letter from President Joseph Ramsey, of the Wabash, bearing the glad tidings that the latter company had decided to lease to the Electric company a tract of land adjoining the Electric works for a term of forty years. The terms are very reasonable and are gladly accepted by the Electric people. Mr. Woods secured an appropriation from the General Electric company several months ago to cover the cost of a new boiler plant, as stated at the time by The Sentinel, but did not order the boilers then because he could not secure the ground upon which to place them. Mr. Ramsey's letter removes that difficulty and the orders for the boilers will be placed at once. Orders for other power machinery will follow in due time and the plant will be increased from time to time as the business may require. Mr. Wood expresses the opinion that a couple years will find 1,300 men employed in the works, and he has good reasons for believing it. Mr. Wood stated, when the General Electric company assumed charge of the works, that the force would reach 450 men inside of three years and the increase has been considerably greater. There are 537 names on the pay rolls today. In point of workmen employed and the amount of money disbursed monthly in the way of salaries and wages, the Fort Wayne Electric company is fast getting in the front ranks being the third largest institution in the city now, the Pennsylvania company and the Bass Foundry and Machine company only leading in the number of employes.

### HE ROBBED THE MAILS.

Van Wert, O. Nov., 12.—Warren D. Melendy, night telegraph operator at the Pennsylvania railroad station here, is under arrest on the charge of robbing mail pouches left in his office over night. It is claimed Melendy has cofessed. He has been taken to Toledo by United States Marshal Wagner.

### SMASHER CAUGHT STEALING.

For some months the Pennsylvania company was annoyed by the disappearance of articles of baggage from certain trains, and the police department set about to discover the leakage. A certain baggage man was suspected and a decoy was sent through this department with a view of catching him. The articles used were a pair of new gloves and a bolt of ribbon. The scheme worked well, as the gloves and ribbons were missing, and a search revealed them in the baggageman's possession. He was arrested. The guilty man was employed in the capacity of baggageman twenty-seven years on the eastern division.

# Beauty More Than Skin Deep.

Nature Has Provided What Man Has Failed to Create.

"An internal cosmetic" is hardly what Alma-Bromo Salt can be called, but in its effect upon the complexion it is vastly superior to any preparation to be applied externally. Cosmetics, lotions, complexion creams, etc., do not and cannot reach the seat of the trouble, which is internal.

Faulty digestion, particularly that which takes place in the intestines, chronic constipation, with its attendant derangement of the functions of the liver and kidneys, result in an accumulation of poisonous matter which should pass off naturally but which instead is absorbed by the blood. This, in course of circulation, is absorbed by the small glands of the skin, causing discoloration, roughness and eruptions.

The regular and thorough cleansing of the bowels will remove all these poisons, relieve the liver and kidneys, and leave the skin soft, smooth, clean, free from all sallowness, roughness and eruptions.

Alma-Bromo Salt does this. It is nature's remedy for constipation and all attendant troubles. It is the evaporated product, in effervescent form, of Alma-Bromo Spring Water, coming from more than half a mile below the surface, at Alma, Mich.

The staff of physicians at the Alma Sanitarium have used this water for many years in the different forms of nervous, intestinal and liver and kidney affections, including chronic constipation, and find that it surpasses all artificial preparations for this class of disorders.

The pleasing taste of Alma-Bromo Salt, together with its delightful effervescence, removes the disagreeable feeling which usually attends medicine-taking.

### WILL INSPECT THE ROAD.

Tomorrow the officials of the western division of the Pittsburg, Fort Wayne and Chicago road will start upon a two days' inspection of the line. The start will be made at Crestline and the train will run slow, stopping at all places needing particular attention, and arrive in this city in the evening. Thursday morning it will start upon an inspection of the western end of the division and spend the entire day in passing over that part of the line. Included in the party will be Supt. J. B. McKim, Civil Engineer W. B. Blake, Division Operator J. G. Jennings, Trainmaster J. F. Patterson, Master Mechanic B. Fitzpatrick and Road Foreman C. R. Colmey.

### HARRY MEISSE WILL RETIRE.

Harry Meisse, tax agent of the Grand Rapids and Indiana road, will retire from that office Jan. 1. He has under consideration three or four propositions in a business way, but has not fully decided upon the course he will pursue when at liberty to make a choice. Harry is an energetic and ambitious young fellow, possessed of good, sound sense and no little experience in business, and will make a success of any work in which he may engage. He probably believes that the energy expended in behalf of the railway interests would bring better results to himself if directed in another line, and he is probably correct. Mr. Meisse has been with the Grand Rapids and Indiana road for several years. While his title is "tax agent," he is often called upon to officiate as claim agent.

### HEAVY FREIGHT BUSINESS.

The Lake Erie and Western is doing the heaviest freight business of its history, and could do a greater business if it had the equipment. The yards in this city were in a state of congestion for awhile last night. Extra night trains, something unknown before, have been sent out on several occasions lately.

### HIRED SOME MORE MEN.

Another increase in the force of workmen at the Wabash shops occured this morning when William N. Miller, C. Baker and J. A. Long, machinists, were given employment. These men were formerly employed in the Erie shops at Huntington.

### PROMOTED TO FOREMAN.

Theodore Bandau, a boilermaker, has received the appointment of foreman of that department at the Ashley shops of the Wabash, which are under the supervision of General Boiler Foreman James Murray. Mr. Bandau has been in this city about two years. Before coming here he was employed in the company's shops at Peru about five years.

### RECOGNIZE FAITHFUL MEN.

Last week 200 trainmen on the Louisville and Nashville road received an order for winter uniforms, the same to be paid for by the company. A note accompanying each order explained that the company appreciated the good work of its old employes and adopted that method of expressing the same.

### ANOTHER PROMOTION.

John Pope, day messenger, has been advanced to the position of night yard clerk, freight department, of the Pittsburg, vice Harry Donivan, who was promoted yesterday. This promotion is made upon the merits of the man affected and is only a step to others that are sure to come.

### INSURANCE INSPECTOR OUT.

Mr. Newburg, insurance inspector for the Pennsylvania company, is out on the Grand Rapids and Indiana road today, inspecting the insured property. He went north on train No. 7 this morning.

### WILL ENLARGE THE PLANTS.

There is an unprecedented demand for American locomotives, not only for domestic use, but for service in foreign lands. Every locomotive shop in the country is running to its full capacity and is still away behind orders for engines. The Sentiel last Saturday mentioned the fact that the Brooks locomotive works were to be enlarged to double their present capacity and now comes the news that all of the shops of the American Locomotive company are to be enlarged, some of them to a greater extent than the Brooks works. All the railway locomotive shops are working a full complement of men and some of them are working overtime. Only a few of the railway shops build locomotives nowadays, having all they can attend to in keeping the locomotives already on hand in repair.

AFTER EQUINOX

The season has changed. Cold winds, damp air, coughs, colds, grippe, pneumonia—that's the order of events.

This is the time of year for those with weak lungs or a tendency to heavy colds to fortify themselves against exposure by taking Scott's Emulsion

Regular doses give great protection to the throat and lungs. What's the use of staying near the edge when such easy treatment will keep you out of danger.

For obstinate colds, for old coughs, for catarrh and bronchitis Scott's Emulsion is a standard remedy. You can feel the effects of even a small bottle.

We'll send you a little to try, if you like.

SCOTT & BOWNE, 409 Pearl street, New York.

### ARE ABOUT COMPLETED.

The two big amalgamators for the Consolidated Mining company, of Dahlonega, Ga., which are being put together at the Bass shops, are about completed and it is expected that one of them will be shipped to the company this week. The machines are the invention of Dr. Hicks and the Hicks company has an order for fifteen to be shipped to New Zealand on January 1.

### YARD CLERK WILL MARRY.

Mr. and Mrs. Frederick Kanne have issued invitations to the wedding of their daughter, Miss Carrie E., to George McManigal, who is employed in the offices in the east yards of the Pittsburg. The marriage ceremony will take place at the bride's home, 164 Walton avenue, on Christmas day, Wednesday, Dec. 25, at 4 p. m. Mr. Kanne is city salesman for Fisher Bros. and his daughter, the bride-to-be, is a well known and highly respected young lady and an elocutionist of more than ordinary ability.

Among the contents of the package was a silk pillowcasing with hand-made flowers, the work of his aged mother. The flowers are well executed and the entire work is a piece of art seldom equalled in this country.

George E. Graham, assistant foreman at the Pittsburg paint shop, came home this morning. He had been in Toledo attending the funeral of his brother, Charles, whose death was mentioned in The Sentinel last Saturday. Mr. and Mrs. James Blackburn, who were in Toledo for the same purpose, also returned home this morning. Mr. and Mrs. W. Graham, the parents of the deceased, will remain in Toledo a few days.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney and Co. Testimonials free. Sold by Druggists, price, 75c per bottle.
